HUGHES SAYS SENATOR OFFERED "DEAL"

ATTLEE OFFERS DRASTIC PLAN TO EASE CRISIS

Commons Told of Arms Cut, Labor Control and Effort To Get More U. S. Aid.

By The Associated Press

LONDON, Aug. 6—Prime Minister Attlee told parliament today that Great Britain would reduce her armed forces, impose a limited direction of labor and seek relaxation of clauses in the U. S. loan agreement to help ease her growing economic crisis.

He said also that workers "in the more essential industries" would have to work longer and that coal miners would be asked to labor half an hour a day additional.

Attlee said Great Britain also would cut down her imports in a manner that would mean "hardships for many people."

He said the United States, at Britain's entreaty, had agreed to discuss the sterling convertibility and non-discrimination in trade agreements in the $3,750,000,000 loan, which Attlee said would be exhausted this year.

The labor government told the house of commons the agreement reached when the United States advanced credits of $3,750,000,000 was aggravating the British economic crisis.

Loan Gone This Year

Attlee said the loan, originally intended to last until 1950, would be exhausted by the end of this year, but denied that the labor administration had "frittered away" the loan, as Winston Churchill charged in an address Monday.

Attlee, in his grim statement outlining the Socialist regime's plans to overcome its dollar famine, said Great Britain had proposed negotiations with the United States for revision of two clauses in the loan agreement.

"I am glad to say Mr. Marshall (U. S. secretary of state) replied agreeing to those discussions," he said. "They will not cut across the proceedings of the Paris conference."

His references was to international conversations of Marshall's proposal of American aid for European countries in her sphere.

Attlee said the loan clauses to be discussed were the agreements on sterling convertibility and non-discrimination in trade, both targets in Churchill's address to the opposition Conservative party.

Can't Shift Purchases

Under the non-discrimination clause, Britain may not cut down her purchases in the United States in order to increase them in non-dollar countries.

"We have been driven to pay dollars or convertible sterling for our supplies and the problem of convertibility is really a problem of the world shortage of dollars, rather than one arising more particularly from the loan agreement," Atlee said.

He continued that he was about to propose cuts in British imports and subsequently, "the question of discriminating purchases becomes one of much more importance."

Oliver Stanley, a conservative, opened the debate, accusing the government of "encouraging inflation" and "distorting our economy." Stanley said the labor administration could have prevented the swift exhausting of the U. S. loan, originally expected to last until 1950.

3 QUIT BOARD IN WAGE ROW

Walk Out Over Proposal To Increase Restaurant Pay Up to 150 Per Cent.

By The Associated Press

COLUMBUS, O., Aug. 6 — Increases of as much as 150 per cent in the legal base pay of some workers in hotels, restaurants, and drug stores were recommended early today by a strife-torn minimum wage board, which lost three employer members in a hectic all-night session.

State Industrial Relations Director William J. Rogers, who appointed the board June 26 to consider modification of the ten-year-old minimum wage order for the hotel and restaurant business, said he considered the board action legal despite the resignations of the three men representing employers. Their action still left two-thirds of the nine-member body functioning, he explained.

The three quitting in protest against the proposed increase—hotel and restaurant owners contend they already are paying far over the minima in most cases—where D. M. Myers of Cincinnati, manager of the Alms Hotel; Frank Wells, Wooster drug store owner;

FIVE PLANES HUNT MISSING CRUISER

By The Associated Press

CLEVELAND, Aug. 6—Five planes took to the air today in search of an overdue cruiser crossing Lake Erie from Canada.

Possibility that one of the five persons aboard might be in need of medical attention added urgency to the search.

The cruiser, a 33-footer, is owned by John A. Kruse, 38-year-old executive of Otis & Co., Cleveland investment firm. It left Port Bruce, Ont., at 7 a. m. yesterday and was expected to dock at 4 p. m. yesterday at the Cleveland yacht club.

The coast guard was asked to search for the craft by Kruse's wife, Juanita, who said her husband was about to undergo a mastoid operation and had interrupted his vacation to return for it.

Others on board were James Collinson, 20, Kruse's brother-in-law and a student at Oberlin college; John Kruse Jr., 10, and Mr. and Mrs. Charles E. Brunner of Lakewood.

Two coast guard cutters searched for the cruiser during the night, going as far as 35 miles northeast of Cleveland on the approximate course between the city and Port Bruce.

Truman Accepts Bid To Visit Rio De Janeiro

By The Associated Press

WASHINGTON, Aug. 6—President Truman today accepted an invitation to visit Brazil in late August or September.

The White House announced Mr. Truman will fly to Rio De Janeiro for a three day visit and return to the United States aboard the battleship U. S. S. Missouri.

Press Secretary Charles G. Ross would not comment when asked whether Mr. Truman will address the [illegible] security conference there.

Sheriff Retterer's 'Guest List' at New High Total of 32

The "Standing Room Only" sign was hung out at the county jail today by Sheriff LeRoy Retterer after a count revealed 32 names on the guest list.

The number, which includes one woman, is tops for Sheriff Retterer's administration so far, and also is larger than any in previous terms, at least for a number of years, the records show.

It may be a job to find sleeping quarters for the capacity house, but who doesn't heave a sigh of sympathy for the cook—she only has to prepare 96 meals for the day.

NO EARLY BREAK IN HEAT IS FORECAST

Mercury in Marion and Rest of Ohio in 90's.

Palm leaf fans and linen handkerchiefs remained today among the most useful personal items as Marionites sweltered in the several days' old heat wave. The weatherman promises very little relief except for only a few by the prediction of partly cloudy and quite warm tonight and tomorrow with scattered showers and slighlily cooler in the northwest portion of the state.

Marion is not alone among the sections suffering from the excessive heat and humidity, as most of Ohio's cities reported temperatures in the 90's. Columbus thermometers registered the state's highest yesterday with a reading of 96. Youngstown reported the first heat wave death.

A late afternoon rainfall of .4 of an inch here yesterday gave very slight relief as the ther-

2 DIE, 14 HURT IN BRUSH FIRE

Blaze Sweeps Out of Control in Dry Canyon Near Pasadena, Calif.

By The Associated Press

LOS ANGELES, Aug. 6 — A roaring brush fire sweeping through Big Tujunga canyon, 10 miles northwest of suburban Pasadena, killed two men, injured at least 14 others and was still out of control early today.

Supervisor William V. Mendenhall of the Angeles national forest, in which all of the burning area lies, issued a call for 400 volunteer and 100 professional fire fighters in addition to some 300 already battling the flames.

District Ranger M. W. Durham, actively directing the men, described it as the worst fire in this area in 24 years. It had scorched about 2,000 acres.

The dead men were Carl Masterson, 37, a U. S. forest service employe, and Harry Duffy, 19, a volunteer working out of Deer Creek fire camp.

The fire started yesterday in a brush area tinder-dry for weeks. Southwest winds sent it racing along.

All families in Trail Canyon were evacuated including Mrs. Bonnie Sparks, 23, and her six-day-old daughter, Beverly Dianne. Durham said more than 100 cabins, leased from the government, were endangered.

Boyle Finds Lots of Day Dreamers in U. S.

By HAL BOYLE
Associated Press Writer.

NEW YORK — There is no shortage of dream worlds in America.

Back down the road aways I wrote a piece about the private dream world I live in when I am being bored by people or ought to be at my work.

Well, judging from the mail I have been getting, there must be more dream worlds in this country than there is bubble gum. For all our efficiency and hustle-bustle, we Americans still delight in shedding the shackles of our routine to romp and gather wool in mental pastures where the moon flowers never die.

Hal Boyle

Many people have written in to tell me what fun they get out of day-dreaming. I think they are much more healthy minded than some globe-browed people who say day dreaming is a pernicious waste of time. Reveries often lead to structures more substantial than airy castles-in-Spain. They are also escape valves for bottled up meanness and frustration. The man who day dreams rarely goes mad and bites strangers in a crowded subway.

The tense man of unresting action clutters his office walls with slogans like "Think!" and "Do It Now!" But when he goes to bed he is likely to ride off on a wild nightmare who has the bit in her teeth and gallops him down perilous lanes of fear and torment. The day dreamer, on the other hand, has placated his subconscious mind by twilight and lies down to a restful unbroken sleep.

Dreams of Art.

A 50-year-old lady in Charlotte, N. C., wrote me that all her life she wanted to be an artist. "But poverty said 'no!'" But when she comes home from work, she props herself up in bed with three pillows and sketches tree leaves "to draw the fire from my brain."

She said that thus re-living her youthful dreams she found happiness but warned: "Be careful and don't lock the door when you go into that dream world. Remember, you are in there all alone, and you have to get back out!"

A young married woman from Texas wrote she had created a dream world of her own, centering about music, before she started to school.

"I never had a chance to study it," she said, "and just continued on dreaming band music and beautiful waltzes. It's gone on so long that I have decided to start studying music."

This lady said that after ten years of marriage her husband couldn't understand her day-dreaming because he dreamed only at night. He sounds to me like a direct-actionist.

Another young lady from Washington reported that she crossed over into her dream world while sitting in the woods during a refreshing rain. She is an outdoor day dreamer, a rugged cousin of the more conventional, or indoor, dreamer. Most day dreamers do not traverse the threshhold of trance at places where they are likely to catch pneumonia.

A Dreamers Aeon.

I am somewhat suspicious of a major in California—ah, there's a place to dream—who wrote in to tell me how to accomplish one of my favorite dream world projects —to rob the bank of England.

"(1) One hour before the bank opens," he said, "bust the air-conditioning system.

"(2) Drop poison gas pellets into the bank.

"(3) Enter with a gas mask and shoot everyone with a pistol that has a silencer on it.

"(4) Take and put all money you can into two briefcases and leave immediately.

"(5) Stay in hiding for thirteen years—then start spending the money.

"(6) Have a good time."

The major added in a postscript that "I have thought about the same thing sometimes." I am not so sure that I want to team up with him in my dream world.

He sounds too much like a direct-actionist, too.

YOUR HEALTH

By HERMAN N. BUNDESEN, M.D.

Over-Eating

How I wish I could convince every man and woman in this country that overweight shortens life! If I could, I could thereby save thousands from an untimely death and not only that, they would have beauty, grace, activity and zest such as they have never known before.

Believe it or not, this is one of the things about which all medical authorities agree. There is not a dissenting voice. Figures, too, are eloquent in telling the story. They show without any possibility of contradiction that too much fat, larding the body and internal organs may be responsible for the earlier development of heart, blood vessel and kidney disease, diabetes and even cancer.

Many people like to think that their overweight is due to a disturbance in the glands of internal secretion such as a lack of secretion from the thyroid gland in the neck or from the pituitary gland at the base of the brain. This is sometimes true, but only very, very rarely.

Thus, the sooner we realize that overweight in most cases is the result of eating more food than is used up by bodily activity, the sooner we will be able to do something about reducing safely and healthfully.

Just the same, it is well to realize that though glandular disturbances are seldom responsible for our overweight, certain mental factors are, because they influence us to eat too much. Once we understand what they are, we have a better chance to control them.

Strangely enough, anything which increases the emotions of sorrow or anxiety or the nervous reactions of being on edge or irritable will further the desire for food. For example, Dr. S. Charles Freed of San Francisco, California, questioned 500 patients who were under treatment for overweight. He asked them, "When you are nervous or worried do you eat more or less?" Three hundred and seventy answered that they either ate larger meals or ate more frequently. Most of the remainder answered that they did not eat more when worried or nervous but they did eat more when they were idle, bored or tired. There are a number of factors, then, which influence overeating.

The child who is brought up in a family where it is common to have large, rich meals will imitate those around him and eat an excessive amount of food.

When there is lack of interest or distractions, a person may try to escape from his monotonous life by overeating.

Persons employed in restaurants, candy shops and food stores are constantly influenced to eat by the mere presence of food.

Persons confined to bed may continue with their usual food habits and thus take more food than they require.

Thus, in the treatment of overweight it is important that all of these various factors be given considerations. An attempt must be made to rid a person of his anxieties and emotional stress. Nevertheless dieting remains the most important part of the reducing program.

Dr. Freed recommends a diet of from 800 to 1100 calories. Of course, the diet should be well-balanced supplying all of the necessary food parts. I have outlined such a diet which I will be glad to send free to all those who desire it if they will send a large self-addressed envelope, stamped with 6c postage. Names will not be used.

In order to suppress the appetite a drug known as amphetamine sulfate may be used but, of course, only under the direction of a physician.

Questions and Answers

R. M.: I have a boy five years of age. He gets cold frequently. He breathes heavy and has difficulty getting his breath. Do you think he has bronchitis?

Answer: No. The symptoms which you describe are much like those of asthma, a condition in which there are attacks of noisy breathing, shortness of breath, and coughing.

It is important that the child be examined by a physician to determine if the symptoms are due to asthma so that treatment for it can be started.

Usable Electric Power Possible from Atomic Energy in 10 Years

By FRANK CAREY
Associated Press Science Reporter

WASHINGTON, Aug. 6 — By 1952, and possibly before that, we may see the first demonstration of usable electrical power derived from atomic energy.

That's the prediction today — just two years after the bombing of Hiroshima brought the world face to face with the atomic age—of Dr. J. Robert Oppenheimer, one of the big shots in the development of the A-bomb.

Oppenheimer gives these further estimates of the atomic power time table, which conceivably would apply to the generation of heat as well as electricity.

▶ By 1957—"And certainly in less than two decades"—it may be possible to apply nuclear energy "to certain specific highly critical problems of energy generation."

"Whether this will be to establish a station near the north pole, or to propel ships or rockets, I don't know," says the scientist, "but it will be a case where cost is not important, where one is willing to divert quite valuable material to a specialized and important objective."

▶ It will be somewhere between 1977 and 1997 "before atomic energy can in any substantial way supplement the general power resources of the world."

Oppenheimer, chairman of the general advisory committee to the U. S. Atomic Energy Commission, presented these estimates to the control committee of the United Nations atomic energy commission. He offered them as his individual views.

Commission Report

The U. S. atomic energy commission, in its recent report to congress, declared:

"It is speculative, at this stage of development, to estimate how long it will be until power production units feasible for large-scale commercial use will be available. Such power, when attained, will almost certainly supplement rather than supplant water power and power derived from coal, oil and gas."

How about the cost of producing and operating a nuclear power plant?

An estimate prepared by a group of scientists and engineers at the Oak Ridge, Tenn., atomic energy installation said a large stationary power plant with a capacity of 75,000 kilowatts could probably be built for about $25,000,000 "in a normal locality in the eastern United States", and be operated at a cost of 4 mills per kilowatt hour.

The estimate said a coal power plant of similar capacity would cost $10,000,000 and that the operating cost would be only 6½ mills per kilowatt hour, based on a coal-cost figure of $7 a ton. But the report added that "equality of operating costs between coal power plants and nuclear power plants would be reached if the coal cost $10 per ton."

Some Estimates Higher

Dr. Farrington Daniels of the University of Wisconsin, one of the planners of an experimental power plant at Oak Ridge, says some estimates run higher than 8 mills per kilowatt hour for atomic power. He says that the exact cost can be determined only after pilot plants have been built and studied.

Carroll L. Wilson, general manager of the U .S. atomic energy commission said recently "predictions have been made (regarding time and cost) which now appear to have been optimistic."

Various American scientists have said that conceivably atomic power would have extensive application in countries where coal is lacking, short or difficult to mine.

In this country, atomic power has its best foreseeable use—for the present at least—in isolated regions far from ordinary sources of power.

As to propulsion, large ships and submarines look like the most fruitful territory. Locomotives are on the border line. The reason is that an atomic power plant, under present knowledge, must be a big affair, requiring thick shielding against dangerous radiations. For that same reason, atomic heating plants would have to be huge structures, operating on a central distribution plan.

Research in Air

The atomic energy commission also is sponsoring research into the possibilities of propelling aircraft and rockets by nuclear energy—so the door is not entirely closed on the prospect of decreasing the size of atomic power plants.

When and if it comes, the first jolt of electrical power derived from atomic energy will probably come from the experimental plant constructed at Oak Ridge. Still another plant for the study of nuclear power—with some special attention to the propulsion of ships—is abuilding at the Knolls laboratory of the commission at Schenectady, N. Y.

At both these sites the source of any "atom" electrical power will be a uranium chain-reacting "pile" or "oven.". It is in such ovens that plutonium, a material of atomic bombs, is manufactured.

In an atomic bomb the splitting of either uranium or plutonium atoms takes place fast enough to produce a violent explosion. The 'pile" is under constant control, like a cook-stove.

Piles constructed at Oak Ridge and at Pasco, Wash., for the development of the A-Bomb produced heat enough to warm the air over Oak Ridge and raise the temperature of Washington's Columbia river slightly.

That's not heat enough to run a steam engine. But it should be remembered that the A-bomb makers, weren't trying to generate heat. They could have eased the controls on the uranium they were "cooking," but if they had their "ovens" might have melted away.

Final Plans Made For Grotto Convention

Final plans for a family picnic to be held Aug. 16 at Garfield park were made at the meeting Monday night of Kadkar Grotto held in the Masonic temple. The picnic is for all prophets, Maxens and friends. A covered dish dinner will be served. Melvin Winters and Benjamin Eddy are in charge of arrangements.

Election of officers for the Low 12 club of the Grotto was also held. W. Don Davis was named president, A. H. Marks, vice president and Walter S. Guthrie, secretary.

Plans were discussed for a new regular meeting place and the proposal will be acted upon at the next meeting. Arrangements were also made for members to attend the Ohio state Grotto convention at Cedar Point Aug. 29 and 30.

Churchill Prophesies Again British Will Come Through

By DEWITT MACKENZIE
Associated Press
Foreign Affairs Analyst

Winston Churchill, whose host of admirers regard him as the personification of John Bull at the best, declares that the British people will come through the economic crisis they now face, no matter what the difficulties may be.

That prediction isn't likely to be taken lightly by a world which remembers another prophesy of the famous war-time prime minister, made in the dark days just after Dunkerque.

DewittMackenzie

"We shall defend our island whatever the cost may be. We shall fight on the beaches, we shall fight on the landing grounds, we shall fight in the fields and in the streets, we shall fight in the hills; we shall never surrender."

Churchill was right, for his forecast was based on his sure knowledge of the sturdy character of his people. But that wasn't by any means the only occasion, even in our time, that this trait had been exhibited. Those of us who were with Field Marshal Haaig in France when the Germans launched their all-but-successful offensive in April, 1918, are not likely soon to forget his memorable "backs to the wall" order of the day, calling for a "fight to the end," which resulted in turning the tide of the war.

Can He Do It Again?

Can Churchill duplicate as a prophet now; many close observers, including your columnist, believe that Britain will come through. That belief is based partly on past performance—on sturdiness of character in adversity. It is based partly on the belief that the economic resources of Britain and her colonial possessions are sufficient to maintain economic well being, provided she can stave off disaster during the present emergency.

However, we should beware of wishful thinking. This crisis has reached a stage where the oxygen tent will have to be brought into use unless the progress of the disease is halted. The political correspondent of the London Daily Telegraph, writing yesterday of the report which the prime minister is to make in the house of commons, stated grimly that it is the gravest statement to be made to parliament since the darkest days of the war.

The British people are prepared for even greater hardships than they have had to endure during and since the war. Thusfar they have accepted that tough prospect without a whimper. However, sturdiness of character alone isn't likely to turn the trick. The British government is looking to America for further aid, and in this it has the backing of the powerful Conservative party headed by Churchill.

Pledges Party Support

Churchill yesterday pledged that his party would support efforts of the Labor (Socialist) government to obtain "easements" of the swiftly disappearing American loan of $3,750,000,000 and to secure new American credits. Said he:

"There is no shame in one brave and faithful ally, deeply injured in the common struggle, asking another to help him recover and stand upon his feet. Had the positions been reversed, we would have done the same for them."

So as the signs now read, Britain's recovery may depend very largely on those easements and new credits. And if England gets these, how long will it take her to reach an advanced stage of convalescence?

Of course nobody can pin that down at this stage. At the time that Britain secured her loan from Washington a year ago, her experts figured that the crisis would be overcome in about three years and that in a couple of years more she could begin repayment, if she had the use of $5,000,000,000.

Well, the British didn't get that much, and they say their calculations have been further upset by terms of the agreement. However, if they should succeed in securing aid which would permit them to revert to their original calculations, and if those calculations are correct, then a couple of years might turn the trick, though that obviously is speculation.

HEAT WAVE CAUSES FEAR FOR CORN CROP

By The Associated Press

CHICAGO, Aug. 6—The heat wave in the mid-west is causing apprehension over the corn crop outlook and sending prices to the highest levels in history.

Ordinarily the heat of the past few days would be beneficial to the crop, grain men said, but July was a dry month and the grain did not receive adequate moisture.

As a result prices of the yellow grain have soared. Corn for delivery in September hit $2.22½ a bushell on the Chicago board of trade Monday, highest paid for any futures contract in the 99-history of the exchange.

Cash corn in Chicago sold at $2.23 a bushell, 3 cents under the record peak of August, 1917.

H. J. Gramlich, general agricultural agent of the Chicago and North Western railway, said that August had started with top soil dry and "rainfall is the most important factor in corn growth from here on out."

"Corn is late," Gramlich said, "and there is not time for it to stand still waiting for rain. A 90 degree temperature does corn little good unless there is ample moisture around the roots.

"Few people realize that it takes one-half bushel of water to produce an average sized ear of corn. Most of this water is used during July and August, the major part in August."

Cub Scouts Receive Awards at Meeting

Pack 39, Cub Scouts, sponsored by Emmanuel Baptist church, met at the church Monday night, at which time awards were made and den chiefs named.

Howard Jones, Cub master, presided and Dr. C. N. Hershey, pastor of the church, read the scripture and led prayer. A display of handicraft work was given for the parents, who were guests at the meeting.

Scoutmaster Carl Ford introduced the den chiefs of the pack, Paul Highland, Den 1, and James Condron, Den 3. Roger Bastian, who is now on a trip with the scouts in Minnesota, is chief of Den 2. Each was presented with a den chief cord.

Advancement awards were presented to the following boys: Den 1, Jimmy Highland and Roger Jamison, wolf and gold arrow; Den 2, Larry Coy, Bobcat, Carl Breece, Bobcat and wolf, and Tommy Condron, wolf and gold arrow; Den 3, Jimmy O'Hara, Bobcat, Richard Grace, wolf and gold arrow, and Philip Walters, wolf.

Den No. 3 presented its den mother, Mrs. Margaret Russell, with her den mother pin. Roger Jamison assisted in leading a song service. Herman Powelson, Cub executive, conducted a meeting of the parents and officers and answered questions about scout work during a discussion period.

Officers Installed At P.H.C. Meeting

Formal installation of officers for the Protected Home Circle was held Friday night with Mrs. Minnie Van Asbeck serving as installing officer. Mr. and Mrs. Roy Russel were honorary guide and companion and the degree team served as guard of honor.

Officers installed were Carl Daly, president; Chester Daly, past president, Ted Jackson, vice president, Robert Holcomb, guardian; C. I. Smithson, chaplain; Mrs. Helen Jackson, guide; Mrs. Lucille Piedmore, companion, Isaac Eaton, sentinel; Mrs. Rose Seiter, watchman; Mrs. Van Asbeck, pianist; Mrs. Jackson, captain.

The semi-annual report of the auditing committee was given. Arrangements were made for a potluck supper Friday at 6.30 p. m. Plans were made for a class initiation in September, when the traveling banner will be formally presented to the Marion circle. The Marion unit has won the banner four times for the increase in membership locally. A picture of the degree team was taken during the evening.

GALION ROTARIANS TOLD ABOUT DISABLED VETS

Report Only 13% in State Rehabilitation Program.

Special to The Star

GALION, Aug. 6—"More and more jobs are becoming specialized, and for that reason, it is more and more necessary to have vocational guidance," Dean F. Chatlain told members of the Galion Rotary club, Monday evening, when he was guest speaker at the dinner-meeting of the club at Hotel Talbott.

A native of Mansfield where he also was raised, Mr. Chatlain attended Ohio university, and served almost three years in the army, the greater part of which he was with the First Armored division as lieutenant, tank platoon leader. He is now assistant veterans employment representative for disabled veterans in Ohio, and former director of the Akron Veterans Information Center.

Mr. Chatlain spoke on vocational guidance for veterans. He gave illustrations of the type of work done by the employment office. He said there are the veterans who were old enough to have training and skills before they entered the armed forces, while there are other veterans who entered service immediately after school with no training and face jobs with no experience. In these cases, the veteran is sent to guidance clinics.

Chatlain pointed out that only 13 per cent of the 103,500 disabled veterans in Ohio are taking advantage of the rehabilitation program. He stated that the government will eventually have to take care of the men and their families who do not take advantage of this work.

C. of C. Club Enrolls Ten New Members

Ten new members were added to the Round-Up club of Marion Chamber of Commerce during the past month it was announced at a luncheon-meeting held Monday noon at Hotel Harding.

The new members are: Martin Higley and Waneta Zeis, Mrs. Blanche Layman, Bernard L. Bliman, Harold Smith, Harry F. Kaelber, R. W. Moore, H. L. Patterson, Raymond Rayl, Ben H. Smith and W. Bruce Tibbals.

Winners for the membership contest recently held were Paul Bachman and W. Hoover Brown. Carl Lemnitzer, chairman, announced the 57 new members had been added this year, including the last 10. Plans for a dinner-meeting on Sept. 15 were made.

New Teacher Hired At Carey High School

Special to The Star

CAREY, Aug. 6—The Carey board of education has employed Edwin C. Treherne as high school teacher and assistant basketball coach for the ensuing school year. He has also been selected as faculty manager of athletic activities for the coming year. Mr. Treherne has a bachelor of science in education degree from Ohio Northern university. He is now completing his second summer at Ohio State university on a master's degree. Mr. Treherne taught calculus, analytical geometry and college solid geometry at Ohio Northern university before entering the army where he served three and one-half years with the air corps as a meteorologist. He was a teacher at Williamsfield, O. the past year and was head football, basketball and baseball coach at South Amherst. He is married with one son two and one-half years old and a daughter five months old.

ANNOUNCE NUPTIALS

UPPER SANDUSKY, O., Aug. 6—Announcement is being made of the marriage of two Wyandot county young people, Miss Ivalene Wyss, daughter of Mr. and Mrs. Harry Wyss of McCutchenville, and George DeBolt Jr., son of Mr. and Mrs. George DeBolt Sr. of near Upper Sandusky. The double-ring ceremony was solemnized Saturday, July 26, in Newport, Ky.

The new Mrs. DeBolt is a graduate of the Sycamore high school with the class of '42. She was an employe of the City Loan Co. in this city until three and one-half months ago.

Mr. DeBolt graduated from the Eden high school with the class of '39 and since his return from service with the United States Army has been a student in engineering at Penn college, Cleveland.

Bids Received On Sidewalk Project

Bids for the construction of a sidewalk on both sides of Merchant avenue were received Aug. 1, E. O. Uncapher, safety service director announced today.

Low bid, submitted by Arlie E. Porter of Marion, was approximately the amount estimated for the project by T. S. Catheral, city engineer, and totaled $2,720.30. C. M. Miller bid $4,100.80 and G. E. Kohberger $3,86.36. Both are from Marion.

The bids received Friday were the first. Mr. Uncapher said none were received the first time the project was advertised. The sidewalk will extend between East Church street and Indiana avenue.

Make This Home Recipe To Take Off Ugly Fat

It's simple. It's amazing how quickly one may lose pounds of bulky, unsightly fat right in your own home. Make this recipe yourself. It's easy—no trouble at all and costs little. It contains nothing harmful. Just go to your druggist and ask for four ounces of liquid Reamel Concentrate. Pour this into a pint bottle and add enough grapefruit juice to fill the bottle. Then take two tablespoonsful twice a day. That's all there is to it.

If the very first bottle doesn't show the simple, easy way to lose bulky fat and help regain slender, more graceful curves; if reducible pounds and inches of excess fat don't just seem to disappear almost like magic from neck, chin, arms, bust, abdomen, hips, calves and ankles, just return the empty bottle for your money back. You don't have to starve yourself; eat sensibly per instructions on bottle. Follow the easy way endorsed by many who have tried this plan and help bring back alluring curves and graceful slenderness. Note how quickly bloat disappears—how much better you feel. More alive, youthful appearing and active.

Is Everybody Happy?

THE public is pleased because there isn't going to be a Ford strike. Ford employes are happy. The Ford Co. is happy. It looks as if everybody were happy. Maybe everybody is happy.

The only doubt arises from the fact that settlements in big industries have a way of becoming the pattern for settlements in all industries. Therefore, happy or not, it seems to be necessary to try to guess what's coming as the result of the Ford settlement.

It looks like a matter of technique, rather than a principle. That is, the negotiators in this case found a slick way around the liability clause in the new Taft-Hartley act. This was the clause permitting employers to sue unions for damages caused by breach of contract.

The CIO was out hot and heavy to scuttle this threat, and the UAW had warmed up for the Ford negotiations with a strike closing down the Murray Corp., a Ford supplier, over the same issue. The obvious purpose was to prove that CIO was as adroit in evading liability as John L. Lewis, No. 1 labor leader and the power behind AFL, Lewis, of course, had set the pace by agreeing with coal operators that miners would work only when able and willing—a loophole as big as a barn door.

Nothing else in the Ford negotiations mattered, except this. Thus, the company's proposal to stall off any showdown on liability by setting up a procedure for a powwow that can last for the next year broke the deadlock. Everybody was made happy. Even Representative Hartley, co-author of the Taft-Hartley act, said he was happy. It's beginning to look as if the law he co-authored isn't going to enslave the union bosses after all. They'll just agree with employers to postpone the showdown.

Heat Wave

THE headlines follow a pattern: Nation Swelters. Lemon Prices Rise with Temperature. Eggs Fried on Sidewalk. Heat Prostrates Score. Corn Crop Figures Raised. Thousands Flock to Beaches. Exploding Pavement Wrecks Car. Kids Go Bathing at Fire Hydrant. Mercury Hits 109 in South Dakota. Cold Air Mass Stalled in Canada. Humidity Hits New High. Sun on Lens Blaze in Jeweler's Window. Major League Umpires Doff Coats First Time This Year. Air Conditioning Fails, Workers Quit. Weatherman Scans Skies, No Respite Seen.

That's only a part of the story of a heat wave. There also is the picture of the amount of clothes a woman wears weighed alongside a man's apparel. If it proves anything, it is that men are set in their ways. Theater ads no longer emphasize "25 degrees cooler inside." Now they're just "healthfully air-conditioned."

Many another news item is linked to the weather. There are fights, divorce cases with freak twists and accidents, all traceable to irritability or inefficiency aggravated by the heat. The weather is the biggest story of the day. Like the atmosphere, it is all-pervading.

Nuts to Ideologies

WE PREDICT Prime Minister Attlee will soon be writing his memoirs. He has said to the house of commons in effect:

"Nuts to ideologies. What Britain needs is 365 days of hard work in a row, and with this noble assembly's consent my government will quit reforming the country and tackle recovery instead."

This is a major development, if it develops. On that point there must be reservations. The Attlees of politics are full of talk, and this may be more talk. Having lived their whole lives free from sweat they shy away instinctively whenever sweat glistens.

Their aversion to work makes them fascinating to all the rest of us, because we'd rather take things too easy too. That's why it's no trick to build up a following. Everybody goes chasing off after the pied pipers of leisure who claim they've figured out a way to emancipate toilers.

The British were sick of working like dogs during the war. They turned to Attlee to see what could be done about it. The Attlees were full of talk and ideas. So for two years they've planned and talked, while Britain's work deficit piled up. The money they borrowed from the United States melted like a snowbank in April, and there's no more where that came from—not until Britain quits being preoccupied with theories about who's going to own what and gets down to brass tacks on who's going to do the work. The Socialists in power (calling themselves a labor government) have come up with the only possible answer—a proposition to make the British work harder.

This is the beginning of the end for Britain's Attlees. If all they have to offer is blood, toil, sweat and tears, the British might as well put someone in charge who never promised anything else.

Did You Know

Even after the introduction of practical friction matches in 1827, they were considered so dangerous that railroads in the United States during the middle 19th century refused to transport them.

News Behind the News

By PAUL MALLON

Britain Wants U. S. To Pay for Ruhr Socialization.

WASHINGTON, Aug. 6—Prime Minister Attlee and Foreign Minister Bevin promised their own British Socialist unions party the Ruhr coal mines would be socialized. Unable to produce enough coal through Socialism at home, the British want to impose Socialism upon the industrial heart of Europe which has not been able to produce either.

Worse than this, the British want us to pay for their Ruhr socialization out of our capitalistic economy. The British have been insisting the United States take over the job of suppling food, raw materials and other essentials to a real revival of Ruhr industry. Furthermore, they want a direct loan to let the Ruhr coal and steel companies buy equipment which will enable them to operate successfully under Socialism (they hope.)

One straight inside report here from Germany (private and not official) says, "Our U. S. Governor General Clay is said to have told his British opposite, Gen. Sir Brian Robertson, quite bluntly that if the U. S. is going to pay the bill, the U. S. is going to decide how the show will be run. And that if either occupying power is to have a major voice in running the Ruhr, it will be the U. S., not Britain. American officials say our major objective is to get the Ruhr industries into production, and the record clearly shows that British nationalization just has not produced coal either in the Ruhr or at home."

Cause of Deadlock

This point (says the report) is what is really behind the six-month old deadlock between British and U. S. authorities, behind the current talks between us. The United States policy seeks a five-year moratorium on the question and then an election decision permitting the German people themselves to decide what they want to do in a truly free, democratic way.

Another report current in the top circles here, which do not deal with rumors, indicates the British asked the U. S. to put up 75 per cent instead of 50 per cent of one billion dollars the two governments agreed to furnish Germany over a three year period at the time the two zones (American and British) were merged economically. This report further indicates the British hinted officially to the American government a few days back they would need a billion under the Marshall plan to increase steel and coal production.

This, then, is the genuine problem within the misleading propaganda now being glibly circulated. The problem is not to be solved by the use of such fake terms as "isolationist," "internationalist" or any of the other catch-phrases being used to dissuade our government from its policy of defending private ownership and free enterprise in a free competitive society.

It will have to be handled with tact and genuine diplomacy as well as firmness, because Russian Socialism varies from the British only in absolutism and scope. The British at least are still free and not a dictatorship for Socialism. The Russians, with a particular aptitude for sabotage, are ready to promote confusion, ill will and prevent re-establishment of Ruhr industry by any means they can—including prolongation of trouble between the British and us.

Ruhr Is Apex

Thus the whole European aid program, the entire American policy for Europe, heads considerably up toward a Ruhr apex, a somewhat enigmatic apex. An American industrial leader, Sinclair Weeks, made a speech recently upon his return from Germany pointing out the vital necessity of agreement. He told how Holland formerly bought Ruhr products and shipped to Germany a large supply of foodstuffs in return. Today Holland has neither this market nor this traffic. From the Danube valley and east, France and Sweden, Germany took products for which she paid with Ruhr products, now not being produced. There are 71,000,000 people in Germany, Weeks said; today one-third of their starvation diet of 1,500 calories is provided by the United States; we are spending one billion a year to take food, medical supplies and lubricating oil to Germany.

To put it mildly, here seems to be an opportunity for impoverished Britain to show a generous spirit of her own, to give something she can give.

To put it plainly, here Britain has an opportunity to cut her own debilitating cost of occupation, to do something genuine for democracy, and to reestablish the Ruhr production, without which Europe cannot economically survive.

Sweet Alice Packs

A Punch These Days

A resident of Nottingham, England, who went home and told his wife, "I'm boss from now on!" awoke in a hospital, kicked, cut, bruised and bloodied.

Oh well, there's nothing like getting those things settled, once and for all.

It wasn't that he didn't know his own strength, it was just that he didn't realize the little woman's.

The scoundrel who labeled women the weaker sex was one of history's greatest trouble-makers. How much better off man would be if he were taught from childhood that it isn't only in zoological circles that the female of the species is deadlier than the male.

Time may have been when women meekly accepted domination. But even those citizens who still contend that a man has a right to beat his wife caution that he'd best keep his left up for self-defense.

Yes sir, the era has long since passed when one, having asked for the head of the house, is surprised when Ma comes to the door.

Too Much Politics

By GEORGE E. SOKOLSKY

A VERY wise man who has seen the march of events for more years than most of us recently complained that there was too much politics in the air. This generation is obsessed by politics. In some countries, such as Italy and France, politics absorbs the energies of the people. Art has flown into hiding; music has become a shrill cacophony; even production in industry has given way before the endless talk about government. As for morals, ethics, philosophy, they have disappeared altogether before the belligerent shout of the politician and the propagandistic lies of those who have seized power.

Even in our own country, politics holds the front page of newspapers and the staccato of the commentators. Unusual as it seems, the Broadway columnists, children of fashion, who used to be amusing with their tales of wickedness and their emphasis upon the grotesque, have gone political and vie with each other in political prophecy. Even the vaudevillians, who are hired to amuse the public on the radio, punctuate their repetitive humor with political gags and slanted comment on the events of the day. If this trend continues, we shall have umpires at baseball games shouting "Veto!" instead of "Strike!"

Easily Explained.

The reason for this concentration on a single subject is obvious. It is that everywhere government has expanded and increased its power; that government has invaded the home, the church, the school, the college and university, the mill and factory, the farm. No man is free from government. Banks are owned or controlled by government. In many countries, the food of the people is distributed on minimum rations by government officials who decide for themselves not only what one is to eat but who is to eat. Even here in the United States, high food prices are due to government buying for foreign accounts. UNRRA not only fed millions with American food, which became a gift from government to government, but their governments sold the food to their own people and in some instances, only to those who were politically on the right side.

When more than 35 cents of every earned dollar is taken from the individual by his government, the man who is deprived of the possibility of saving becomes politically conscious. He wonders why his government needs so much. When he discovers, as so many farmers did, that after the government has deprived him of his own earned money, it hands him a subsidy, he wonders what corruption is in the air. When he sees that his government refuses to reduce his tax by one penny but lays plans to spend $20,000,000,000 over a four-year period in Europe and Asia and that a vast propaganda machine has been let loose upon him to confuse and deceive him into believing that the only way to save his economy is to throw good money after bad, he grows suspicious and becomes political. He wants to know what's cooking.

That is why we are so preoccupied with the mere business of government. And it is interesting that during the last decade nothing noteworthy has appeared in art, in music, in poetry, in the novel, in philosophy. It is all journalistic. It is all of the moment. It is like the frightening noise I listened to at the Berkshire festival when Copland vied with Stravinsky in the use of the instruments of music to produce the maximum of noise that the human ear can tolerate.

But worse even than that is the absence of standards, of the urbanities of living, of the cultivation of truth, of the resistance to the lie. Politics has driven decency out of our lives as bad money drives out good money. Picayune men, such as never before led a people, emerge as celebrities on ghost-written speeches and publicity-agented fame.

It is such an era and therefore politics absorbs the human mind and interest. Millions of women each year attend political lectures in thousands of clubs and forums who could, if they only would, devote themselves to the improvement of the mind and character of the next generation. It is a way of life—but not a good way of life.

Marion county commissioners had received 20 applications for the position of dog warden.

Miss Hazel Grace of Pearl street and Delbert Wintringham of Park street were united in marriage at the Main street church in Covington, Ky., by Rev. Thomas B. Stratton.

Daily Bible Thought

Humanity has been trying in vain to establish a system that will insure eternal peace. Alliances and leagues began to crumble as soon as the ink was dry on the covenants that guaranteed the reign of peace. Now let us accept the rule of Christ and see if that does not utterly insure eternal peace. Isaiah 9:7: "Of the increase of his government and of peace there shall be no end."

Wage-Price Spurts in July

By MARK SULLIVAN

WASHINGTON, Aug. 6.—During the three weeks ended Aug. 1, the country experienced another rise in the wage-price spiral, which is the mechanism of inflation. This rise had characteristics which distinguish it from preceding ones. The characteristics included the clarity with which it could be seen, the brevity of the time in which is took place and the definiteness of the successive steps which composed it.

First step. Only July 8 a rise in the wages of coal miners took place by agreement between owners of coal mines and John L. Lewis's United Mine Workers. The amount of the rise, differing for different kinds of work, while not possible to state exactly in a single figure, was about $1.20 per day.

Second step. The wage rise led to an increase in the price of coal. The amount of the increase cannot be stated exactly; it differs with different kinds of coal and a partial index of the increase is the retail price of coal in one large city, Washington. On July 15 the price of bituminous coal was increased an average of $1.60 a ton. On the last day of the month anthracite coal was increased an average of $1.15 a ton.

Third step. The price of coal enters into the cost of making steel. A wave of increases in prices of steel came during the last week of July, the amounts varying with different kinds of steel and differing stages of manufacture. On July 24 the Republic Steel Company announced an increase of $5 to $8 a ton. Two days later Jones & Laughlin announced an increase of $5 to $10 a ton. Several other companies announced increases during the same week. The largest producer United States Steel Corporation, acted on July 29, announcing an increase ranging about $5 a ton, to take effect Aug. 1.

Fourth step. On the first day of August came the last step, so far. Steel enters into the cost of making automobiles, and General Motors announced an increase in the prices of its automobiles and trucks. The increases ranged from 2 to 6 per cent. In terms of the price of cars, the increases on different models of Buicks, for example, ranged from $60 to $139.

While this July wave of price increases was touched off by the rise in wages of coal miners on July 8, and while the increase in the cost of coal entered into all other price increases, parts of several increases were a result of additional factors. The steel industry had granted a wage rise last spring, and the cost of this entered into some of the increases in the prices of steel announced last week.

The increases in the prices of steel announced last week do not in all cases tell the whole story. For an increase in the price of steel at an early stage of manufacture is only one link in a chain. A pound of steel, in its passage from the original steel plant to some plant which manufactures an intricate article containing steel, may go through a dozen processes in a dozen plants. In each, the cost of the process may be increased by increase in the cost of coal or wages or other factors. While the increase in one link may be relatively small, the increase in length of the chain is great.

The increases in prices of coal and steel which took place last week must ultimately increase the prices of an infinite number of manufactured goods. The ultimate total increase in the general price level and in cost of living will be serious.

Company Feared Strike.

For the increases in coal and steel that took place in July responsibility is sometimes put upon the United States Steel Corporation because that corporation, as a large producer of coal, acceded to the demand of Mr. Lewis for a wage rise, though the ultimate responsibility is of course on Mr. Lewis for making the demand. The steel corporation, in an explanation it has issued, says, "Was it it more in the interest of the country as a whole to pay whatever might prove to be the price for a new labor contract . . . or have a general strike in the bituminous coal mines," which "would soon paralyze the industry of the country."

The present rise in the wage-price spiral arose out of negotiations between labor unions and private corporations. Rises which preceded this one and caused this one to be added to a level already high were brought about by the government. In January last year President Truman brought about a wage rise in the steel industry, and concurrently the administration, which then had control of prices, ordered an increase of $5 a ton in the price of steel to pay the cost of the wage rise.

The present rise, coming on top of an already high level, is seriously dangerous. The wage-price spiral, which is the mechanism of inflation, is operating with increased speed and spread.

Short Changed

San Francisco's Steinhart aquarium had ordered a consignment of humuhumunukunukuapuaa. When the shipment came, Dr. Robert C. Miller, aquarium director, lifted the lid and exclaimed, "Why, these are not what I ordered! They're humuhumuhiukole."

Nevertheless, he was glad to get the tiny trigger fish from Hawaii and had them placed on display, even if he was short changed six letters. But he reordered the 21-letter kind.

Letters for Special Delivery

COLUMBIA UNIVERSITY,

Dear Columbia:

Congratulations on cooperating with a Cooperstown hospital in a project to teach medical students some of the qualifications and talents of the country doctor. As I get it the proposition is to try to inject into the doctor of today something of the mood and humility of the old fashioned rural "sawbones," and I am all for it. What this country needs is some more old-fashioned doctors who don't want to make money too fast and will get up in the middle of the night.

• • •

America is healthier than ever, no doubt because of modern methods and up to date doctors. The high-powered specialist is of top importance, but many a patient would be helped psychologically if the busy physician of today seemed a little more kindly and not quite so much like a business wizard. Many a doctor in the top ranks today has the manner of a Wall Street corporation.

• • •

I grant you that the modern doctor makes fewer mistakes and is away out in front in techniques but the country doctor, even when not too sure whether it was measles or nettle-rash, had a way of making the patient feel better anyhow. And whatever your ailment was you could get out of it without a couple of bank loans.

• • •

What the country doctor would do for two dollars was incredible and he would go at any hell or high water, rain, snow or hurricane. For one thing he made calls and somehow got around to see everybody on his list even in an era when rapid transportation was exemplified by the highwheeled bike and the horse and buggy. He didn't mind a long hike over the map either.

• • •

He rarely sent you to see a spleen or liver man—when you came in with a headache, and he could generally get you out of a bad cold without having you gone over by a battery of youthful wonders in a laboratory direct out of a General Electric sales catalogue. He would dress a corn, lance a boil or treat a bellyache all on his own and he could get just as interested in you if all you had was a sore throat instead of a high class breakdown.

• • •

It was his manner, his gentleness, his warm personal concern that helped as much as some of his pills. You didn't link him up with a major financial exploit every time you called him in.

• • •

I hope that Columbia and this Cooperstown hospital will try to resurrect something of the spirit of this old boy. If you could couple up humanity with the modern doctor's skill you would have a medical wonder.

• • •

The old fashioned country doctor would go anywhere, anytime, for anybody. He knew your first name, your wife's first name and your kids' first names. He even knew the dog and canary. Anything any college can do to bring back his fine human qualities will be so much velvet.

Sincerely,

ELMER.

AS we get it, Russia wants it clear that she will never fraternize with an ally as friend.

Byron Price says that the 27 million budget for UN next year will not be enough. The question is whether Gromyko is worth any more than that as a circus.

Jimmy Auditore, "the millionaire stevedore," says his life rivals that of Horatio Alger. His own story of his achievements, starting from a newsboy and at one time controlling many of the N. Y. docks might be retitled "Snowwhite and the Seven WHARVES."

A midget refused to pay the Connecticut sales tax in Stamford the other day in buying a suit. He said children's clothing was exempt. The state tax chief says he is liable for the tax as no matter what he wears he is not a child. Midgets, arise!

Stymie has just made his total earnings $719,660 and is the richest horse in the world. He makes human beings feel pretty envious. We know a parent who just urged his son to work hard and "you have every American boy's chance to grow up and be a horse."

Wish You Were Here

By TRUMAN TWILL

We don't know who selected the scenes on the picture post cards that vacationers send out before his death early in the Coolidge administration the fellow covered a lot of ground.

Picture post cards are all fundamentally the same—Main Street on a hot day in 1905, with the horses and rigs lined up at the hitching posts, a dog lying on the sidewalk and the natives promenading in the quaint costumes of the period.

There are variations on this theme, the local creek on a winter day in 1905 with the natives, dogs and horses missing because they are still on Main Street. In snow scenes, it isn't necessary to show anything but snow.

This is true, also, of scenes from the top of the highest elevation. The big thing here is to look 10 miles into the distance at a lot of blurred landscape that might be anywhere but is said to be at the location specified, a claim no one can challenge.

County courthouses are a standard item of picture post cards. So, for that matter, are the courthouses. Their ugliness throughout the United States is as standardized as the ugliness of postoffices, which must have been designed by the same practical jokers.

A safe and sane item in the picture post card business is zoo scenes. A pelican is good year after year, likewise a rhinoceros. All zoo pictures now extant were taken in Barnum's time, and nobody cares.

Balancing rocks, holes in the ground, hot springs, large trees and unusual bridges have a surefire appeal for tourists. Also hotels (X marks my room) and historic places, such as the house where the man who invented the first doorknob was born.

Harbor scenes and ships on which someone went from somewhere to somewhere also are reliable. These are offered with a few fish guys sailing overhead to prove they're the real thing.

Beauty spots are a favorite selection. They are selected not because they are beautiful, but because they provide a contrast with the surrounding area, which—if the truth were known—is a city dump. When beauty-spot cards bear the inscription "Wish you were here" it is time to fight.

Nothing has been said (ho, ho) about funny cards, which bear pictures of bathing girls, fish, animals or flowers with one or more parts in ridiculous disproportion. It is not known why this is (ho, ho) funny.

However, receivers of picture post cards are thick-skinned. They've been around and know nothing is ever the way it looks in picture post card versions. Either it looks worse, or was torn down, blown down, pushed over or burnt to the ground 17 years ago to make room for the filling station that stands there now.

U.S. TO URGE BALKAN ACTION

Reported Aiming at Move To Overcome Russian Veto Threat.

By The Associated Press

LAKE SUCCESS, Aug. 6—The United States reported was ready today to suggest that the United Nations general assembly handle the Balkans situation if the security council cannot do so because of Russia's veto.

The council was called to meet this afternoon to continue debate on the Balkans, with the prospect of some of the plainist speaking yet heard in that group of eleven diplomats.

An authoritative source said that Herschel V. Johnson, United States deputy on the security council, was set to make an important statement outlining the United States position substantially this way:

1. The United States hopes that the security council will act to meet the situation. But, if the council cannot do that through the use of the veto, the United States is confident that the general assembly will handle the situation.

2. The United States feels strongly on the Soviet use of the veto. It does not like the implications in the Soviet action.

3. The United States has decided views toward what it feels has been the defiance of Albania, Yugoslavia and Bulgaria in refusing to cooperate with the security council's subsidiary group left in the trouble area.

4. Finally, the United States, contrary to reports that it might try to achieve a solution outside the United Nations, is definitely and firmly committed to the United Nations and will exhaust all resources of the charter in trying to solve the question.

The general assembly has authority only to recommend action but it has assumed a great importance as a mirror for world opinion. It cannot make a decision on a case as long as the security council has it but the council majority could drop the Balkans case with the intent of bringing it up in the assembly.

Galion Police Stage Well Attended Ball

Special to The Star

GALION, Aug. 6—Dancers forgot about the heat, Monday evening, when they turned out in good numbers for the annual Policemen's ball, held at the Galion Junior High school gymnasium.

Jerry Marshall and his orchestra furnished music for dancing. Featured with the band were Joan Brandt, vocalist; Al Ross, internationally known clown and comedian, and Glenn Wendall, keyboard artist. A floor show was presented by the featured artists.

Edward Hoekstra, retired city policeman, was general chairman of arrangements. He was assisted by Charles Weber, secretary. Committees were: hall and orchestra, Norwood Smith; advertising and program, Hoekstra, Morris Bowers, George Cook, Weber, Wilbert Schnegelsberger and Charles Lauer; tickets and window cards, George Cook; check room and soft drinks, Smith and M. Bowers; decorations, Weber, Smith, M. Bowers, Lauer, Herman Bowers and Myron Schneiker. Members of the Galion Youth Center assisted in the check room and soft drink service. The ball was sponsored by the Galion Lodge, Fraternal Order of Police.

PROSPECT SHROPSHIRES IN MARYSVILLE SHOW

Gast & Foos To Have Entries in State Event.

The pure bred Shropshire flock of Gast & Foos, Prospect, will again represent Marion county in the eleventh Ohio Shropshire show and sale at Marysville, Saturday, Aug. 9. The Prospect breeders have accepted the invitation of the Ohio Shropshire Breeders' association to represent their flock in the annual event. They have entered a pair of yearling ewes sired by the ram Banbury and Sons 206-B.

These sheep will be judged by Oscar G. Clogg of Strongsville, president of The Ohio Shropshire Breeders' association. Competition will be keen since the yearling classes will be among the largest to be exhibited anywhere throughout the country this year. More than three score of animals will be led in the class in which Gas & Foos have made their entries.

A total of 39 breeders from 24 Ohio counties will assemble 75 registered Shropshires on the Union county fairgrounds.

UNION INFORMATION FOR PUBLIC STUDIED

By The Associated Press

WASHINGTON, Aug. 6—The labor department is trying to decide whether to make public the information unions will file under the new Taft-Hartley labor law.

Secretary Schwellenbach has asked his labor department's legal division for an opinion on the question, an aide said today.

The issue arose when a group of newsmen sent a petition to the secretary, asking that the information required of unions be made available to the press when received.

Schwellenbach read the petition and commented, "I just don't know the answer."

The Taft-Hartley act says the national labor relations board shall not recognize any petitions by a union, unless the union has submitted to the labor department certain information about its finances, officers, and rules.

Schwellenbach yesterday issued the forms to be used in complying with the provision, which is effective Aug. 22.

But the new law does not say whether the data shall be regarded as confidential by the department.

Tired, "All-In"—Listless Feeling Brought To Halt

As Vibrant Energy is Released To Every Muscle, Fibre, Cell

Do you get up in the morning part tired, feel down-and-out all day? Have you slumped-up on your blood strength lately? Overwork, undue worry, cold, flu or other illness often wears down the red-blood-cells.

Every day—every hour—millions of tiny red-blood-cells must pour forth from the marrow of your bones to replace those that are worn-out. A low blood count may affect you in several ways: no appetite, underweight, no energy, a run-down condition, lack of resistance to infection and disease.

To get real relief you must keep up your blood strength. Medical authorities, by analysis of the blood, have by positive proof shown that S.S.S. Tonic is amazingly effective in building up low blood strength in non-organic nutritional anemia. This is due to the S.S.S. Tonic formula which contains special and potent activating ingredients.

Also, S.S.S. Tonic helps you enjoy the food you eat by increasing the gastric digestive juice when it is non-organically too little or scanty—thus the stomach will have little cause to get balky with gas, bloat and give off that sour food taste.

Don't wait! Energize your body with rich, red-blood. Start on S.S.S. Tonic now. As vigorous blood surges throughout your whole body, greater freshness and strength should make you eat better, sleep better, feel better, work better, play better, have a healthy color glow in your skin—firm flesh fill out hollow places. Millions of bottles sold. Get a bottle from your drug store. S.S.S. Tonic helps Build Sturdy Health.

Social Affairs

"GLIMPSES of the Orient" will interest members of the Research club when their season opens with a president's tea on Oct. 7, at the Federation Home. For the first meeting the members will journey into China to learn of its people, history and culture. Throughout the early part of the year they will delve into that nation's art, learn of the achievements of the women and what China offers to the world. Later programs will include a study of India, its cities, men and women together with other important and interesting facts. Early in the new year the members will meet for luncheon and election of officers and a guest day party will be a social date on the April, 1948, calendar. Mrs. W. D. McGee is president of the club, Mrs. C. H. Indoe, vice president, Mrs. W. H. Pohler, recording secretary, Mrs. R. C. Alexander, corresponding secretary, Mrs. Gladys Arter, treasurer.

MRS. G. L. Pierson of South Grand avenue, who is leaving soon to make her home in Elyria, was honored with a handkerchief shower and party by members of the Clionion club Tuesday evening at the Federation Home. Bridge was played with prizes going to Mrs. W. L. Williams, Mrs. B. H. Buetlin and Mrs. W. H. Guy. Refreshments were served from tables centered with bouquets of sweet peas.

Mrs. Dorothy Fogle, a bride-elect of Sunday, Aug. 10, was complimented with a kitchen shower Thursday evening when Mrs. Royal Fields and Miss Dorothy Lawrence entertained at the former's home east of Marion.

Balloons throughout the living-room contained verses directing the honored guest to her gifts. The evening was spent socially with contest honors going to Mrs. Karl Bechtle and Mrs. Ruth Elbling. A buffet lunch was served from a table centered with garden flowers and lighted with tapers in Mrs. Fogle's chosen colors of blue and old rose. A wedding cake topped with a miniature bride and bridegroom also decorated the table. Bouquets of garden flowers were placed throughout the rooms.

Present with Mrs. Fogle, whose marriage to John Paul Lawrence will take place in a closed church service in Epworth Methodist church, were Mrs. George Bechtle, Mrs. Paul Lawrence, Mrs. Karl Bechtle, Mrs. Jack Stowe, Miss Gladys Lawrence, Mrs. Ferdinand Lawrence, Mrs. Dale Lawrence, Mrs. Ruth Eibling, Mrs. Caroline Schweinfurth and Miss Gwendolyn Fields.

Personal Mention

Mr. and Mrs. E. E. Holt and daughter of 706 South Prospect street and Mr. and Mrs. A. C. May and daughter of 207 East Columbia street left Sunday to spend a two-week vacation at Linwood Park, Vermilion, O., on Lake Erie. Mr. Holt is superintendent of Marion city schools, and Mr. May is principal of Harding High school.

• • •

Mr. and Mrs. Russell M. Fowler and children, Richard, Janet Lou, Karen Lee and Sandra Ann, of Buffalo, N. Y., former residents of Marion, are visiting at the home of Mr. and Mrs. Gayle H. Owens of East Church street. Mr. and Mrs. Owens entertained in honor of their guests Saturday evening.

Long-Auer Nuptials Held in Piqua Church

Special to The Star

GALION, Aug. 6. — Naomi Margaret Long and John Warren Auer, were married Sunday afternoon, at St. John's Lutheran church, Piqua. The bride's father, Rev. Simon Long, pastor of the church, read the double ring service, and the bridegroom's father, Rev. Philip E. Auer, pastor of Peace Lutheran church of Galion, preceded the service with a short wedding sermon.

In the wedding party were: Mrs. John W. Althaus of Howell, Mich., sister of the bride; Miss Marie Sievert of Columbus; Patricia Auer of Galion, sister of the bridegroom, was junior bridesmaid; Miriam Long, another sister of the bride, was maid of honor; Susan Long and Betsey Long of Westerville, nieces of the bride, were flower girls; and the ring bearer was Donald Althaus, nephew of the bride.

Rev. John Mittermaier of Yoder, Ind., was best man. Ushers were Elwood Baehr of Galion, James Porter Hunter of Pittsburgh, William Fender of London, Charles and Luther Long of Piqua, brothers of the bride. After Sept. 1 the couple will live at 531 South Drexel Avenue, Apartment 9, Columbus, 9, Ohio, at which time the bridegroom will continue his studies at Capital University. He was graduated from Galion High school in 1944.

The bride is the daughter of Rev. and Mrs. Simon Long of Piqua where she was graduated from high school in 1940. She graduated from Capital University in 1944, and is a secretary in the Conservatory of Music at Capital University.

Three More Jewish Leaders in Custody

By The Associated Press

JERUSALEM, Aug. 6—Three more Jews were taken into custody today as British authorities continued their roundup of Jewish leaders whom the government says have "shown sympathy for the policy of violence" or have "been in contact with the underground."

In Jerusalem, a sharp explosion shattered the early morning quiet of a dusk to dawn curfew area, but British army officials said there were no casualties from the blast—apparently caused by a grenade tossed at a British post near the Jewish agency building.

Approximately 40 Jewish leaders now are being held at Latrun detention camp, including the mayors of the all Jewish towns of Tel Aviv, Natanya and Ramat Gan.

MRS. J. W. GALLEHER CLAIMED BY DEATH

Ill Six Years; Funeral Services To Be Friday.

Mrs. Marie Belle Galleher, 85, died Tuesday noon at the F. F. Carr residence, a rest home, at 267 South Vine street. She suffered from a heart ailment and had been ill six years.

Born Oct. 8, 1862, in Marion county, she was a daughter of Mr. and Mrs. Henry Bolinger, the father a native of Pennsylvania and the mother of Marion county. Her marriage to Joseph William Galleher was in Mt. Gilead. He died in February, 1941 in Marion. Mrs. Galleher was a member of Epworth Methodist church.

Surviving are children, C. H. Galleher and W. E. Galleher, both of Akron, Mrs. Goldie M. Dairy of Marion, R. C. Galleher of Hornell, N. Y., J. M. Galleher of Huntington, Ind., L. L. Galleher of Steubenville, and Mrs. Rose Ash of Cleveland, 22 grandchildren, 34 great-grandchildren, six great-great-grandchildren, and a brother, Harry Bolinger of Marion.

Funeral services will be conducted Friday at 1 p. m. in the Merle H. Hughes mortuary on Mt. Vernon avenue by Dr. V. E. Busler, pastor of Epworth church. Burial will be in Marion cemetery. Friends may call at the funeral home after 7:30 tonight.

Police Return Wounded Man Who Fled Hospital

By International News Service

CLEVELAND, Aug. 6—Two suburban Cleveland Heights detectives were returning today from Kirkwood, Mo., with Arthur Kirkoiran, 28-year-old burglar who escaped from a guarded hospital room July 18.

Kirkorian, whom doctors said could not travel 20 feet because of a collapsed lung, was captured Monday night in the St. Louis suburb. He is to be charged with burglary and automobile theft upon his return.

Detective Sergt. Charles Ruff and Detective Harvey Lancer, of the Cleveland Heights police, flew to Missouri yesterday. They were making the return trip in the 1947 automobile which Kirkorian admitted stealing from a Clevelander.

Sergt. Ruff reported that Kirkorian went to Cleveland's public square following his escape from the hospital. Kirkorian was reported in critical condition from shotgun wounds received when he was caught in a police trap set about a cache of stolen goods.

RITES HELD FOR INFANT

GALION, Aug. 6—Private funeral services were held today at the Snyder funeral home for Janet Arlene Case, five-day-old daughter of Henry and Evelyn Case. Rev. Philip E. Auer, pastor of Peace Lutheran church, officiated, and burial was made in St. Paul Lutheran cemetery at Sulphur Springs. The baby was born Aug. 1, and died Tuesday in Galion City hospital. Surviving are the parents and the grandparents, Mrs. Fanny Schnarrenberger of Galion, and Mr. and Mrs. Earl H. Case of Nevada.

Divorce Action

Petition filed — Jessie Marie Scott against Patrick Scott, grounds neglect and desertion; plaintiff asks divorce and restoration to maiden name of Jessie Marie White. Carnart & Carhart, plaintiff's attorneys.

Judgment Asked

Money only actions have been filed in common pleas court by Lillian Seiler of Seiler's Grocery store against Ernest Spitzer and Anna Spitzer and Carl Noggle and M. Noggle. The plaintiff in her petition asks judgment in the sum of $144.45 against Ernest and Anna Spitzer, and $163.05 against Carl and M. Noggle which she claims is due her for groceries purchased by the defendants. Hugh Kirkwood Jr. represents the plaintiff.

Damage Suit Filed

Judgment in the sum of $1,002.66 is asked in a suit filed by Mabel Harrison against Charles Weir in common pleas court. In her petition the plaintiff claims the sum is due her for destruction of a 35-acre field of soybeans in which she shared a half interest, by stock owned by the defendant. According to the petition the defendant pastured a greater number of stock than the 65 acres of pasture warranted and also failed to provide sufficient supplemental feed and as a result were reduced to a starving condition. The petition further states that as a result the cattle broke down the fence, entered the soybean field, eating, trampling and destroying all the beans and bean plants. The firm of Moore & Myers represent the plaintiff.

Delaware Gets Funds For Work on Airport

Special to The Star

DELAWARE, Aug. 6—The way was cleared yesterday to finance modernization program for the Delaware airport when it was announced by the civil aeronautics administration in Washington that $20,000 had been granted to the Delaware airport program.

The city share of the improvement has already been guaranteed through passage of a $20,000 bond issue several years ago. The funds are earmarked for runway and administration building improvements.

BENDER RAPS EROSION WORK

One Congressman Critical of Lack of Action on Lake Erie Project.

By The Associated Press

CLEVELAND, Aug. 6 — The U. S. Army engineers' beach erosion board continued its eastward course along Lake Erie today after hearing Rep. George Bender (R-Ohio) criticize it for too much talk and not enough action.

At a dinner in Lorain Monday night sponsored by the Ohio Shore and Beach preservation association, the congressman-at-large from Cleveland declared the Army engineers "try to achieve perfection and thus don't do anything about the situation."

Bender, who is chairman of a house committee on beach erosion, criticized them for "too many surveys and no action," declaring there has been entirely too much conversation about erosion and no final words."

A few minutes before, the meeting had heard Col. C. L. Hall, senior member of the board, say considerable study of Lake Erie's attack on the beaches was necessary because as yet no one had discovered the physical laws governing beach erosion.

"We don't intend to allow local pressure to influence our engineering decisions," said Col. Hall. "We won't propose any solution to a specific problem unless we are convinced it is the best answer."

During Bender's address the congressman said his committee had asked the chief of U. S. Army engineers, Gen. B. D. Wheeler, to report a definite answer to the erosion problem before congress reconvenes in January.

The engineers' erosion board made 11 stops Monday in a 90-mile inspection trip beginning at Toledo. After inspecting beaches in this area Tuesday, the board will cover Lake county and conduct an evening meeting in Painesville.

Making the tour, in addition to the board, are George B. Sowers, state director of public works, A. A. Anderson, district engineer for the department of public works in the province of Ontario, and district Army engineers.

Col. D. O. Elliott, division engineer for the Great Lakes division with headquarters in Chicago, told the Lorain meeting that methods used in other parts of the country cannot necessarily be applied to the Lake Erie problem.

State Education Specialists on Program Of 2nd Annual County School Workshop

The second annual Workshop sponsored by the Marion county board of education has been scheduled Monday through Friday the week of Aug. 25, D. T. Mills, county school superintendent, announced today.

The program will lead off Monday night, Aug. 25, with a general session on "Building Personality and Citizenship" to be conducted at 8:15 p. m. in the First Presbyterian church.

The symposium members include: Dr. Dwight Arnold, educator from Kent State university; Dr. Howard Hamlin, state department of education; Dr. Maurice Newburger, bureau of juvenile research at Columbus; Dr. Charles Curren, St. Charles Catholic college in Columbus; Dr. Hershel Nisonger, director of special adult education at Ohio State university. Dr. Nisonger will serve as chairman of the symposium.

The symposium is for all teachers. Parents of school children and others are invited to attend, however, Mr. Mills said.

Tuesday Session

On Tuesday at 8:15 p. m. in the Presbyterian church, the second general session will be held, topic of which is "Current Practices in Teaching Reading." The principal speaker will be Dr. Leland Jacobs of Ohio State university, who will be assisted by several teachers and one or two parents. The purpose of this second meeting is to answer some of the questions in the minds of teachers and parents.

Scheduled to start Wednesday and continue through Friday afternoon at 3 p. m. are individual sessions or groups to be held from 9 a. m. to 3 p. m. at Hotel Harding.

Specialists on Program

Eight recognized specialists in their fields will supervise the series of "workshop studies." The list includes Helen Hayden, returning reading specialist from Wisconsin; Verna Walters, state supervisor of elementary education; Professor M. Pearl Lloyd, department of speech, Ohio Wesleyan university; Dr. Albert Eberhart, Junior High school reading and literature, Ohio State university; Dr. Dwight Arnold, director of guidance and social studies at Kent State university; Dr. Howard Hamlin, division of mental hygiene and narcotics, state education department; Judge Joseph Lady of the Hardin county probate court, Kenton, and Edith Keller, state supervisor of music.

Court-School Study

Judge Lady will conduct a special study on "the court-school relationship." Members of the Marion County Bar association and court personnel have been invited to attend. Of special interest also will be the study session conducted by the state supervisor of music on "Building the County Musical Program."

Judge Dismisses Suit Against Swim Club

By The Associated Press

WARREN, O., Aug. 6—Common Pleas Judge George N. Graham of Stark county has dismissed a suit filed by the local branch of the National Association for Advancement of Colored People. The suit attacked the legality of a lease executed between the city and the Vets Swim Club and claimed Negros were barred from the municipal pool by the club. The suit was dismissed after club's counsel declared Ohio law permitted a city to lease municipally-owned property.

ASK HIKE IN RENTS

By The Associated Press

COLUMBUS, O., Aug. 5—One thousand rent hike leases were filed with the Columbus area rent control office in the first five days of August, more than were filed throughout July, Director Edward F. Wagner said yesterday. All ask the 15 per cent maximum increase permitted under the new rent law which became effective July 1.

GOODS FOR RUSSIA MAY GO TO GREECE

By The Associated Press

WASHINGTON, Aug. 6—Part of a $25,000,000 tag end lot of lend-lease goods originally destined for Russia may wind up in Greece and Turkey under the American aid program designed to ease Soviet pressures on those countries.

The rest is likely to be dumped on the surplus property market where, conceivably, Russia could buy it again at cut-rate prices.

This situation came to light today as officials disclosed privately that congressional action in blocking the shipments is causing an epidemic of headaches in both the state and treasury departments.

The state department pleaded with the lawmakers to let the deal go through lest this government lay itself open to charges of "welshing" on its contract with the Russians.

But congress took the position that Soviet actions in eastern Europe in the last few months needed some sign of official American disapproval.

The state department, meanwhile, gave high priority today to the reconstruction of Greek highways, railroads and ports as a part of the $300,000,000 program to bolster that nation against Communism.

Society Hears Talk By Rev. W. C. Bowman

Rev. W. C. Bowman, Marion evangelist, was guest speaker at the meeting of the Marion County Old Age Pension society Friday in the Eagles hall.

The meeting opened with a prayer by William Porter followed by the group singing "America" and repeating the Lord's prayer and salute to the flag in unison.

A report of the sick was given by Reas Jenkins and Mr. Porter.

A letter from M. J. Berry, president of the Ohio society was read. Arthur Hershner was chosen to be a delegate to the meeting of the state executive board to be held in Columbus.

Rev. Bowman chose for his topic, "Where shall we spend eternity?" He said "True Christians will not need to worry and nothing can mar eternal inheritance in heaven."

The musical program included a duet by William Sergent and Christian Ruth, "The Ninety and Nine," and a number by the choir, "Love Lifted Me." Miss Fern Crabtree and Miss Thelma Hamilton, visitors from South Webster, O., sang the following numbers, "If We Ever Meet Again," "Never Grow Old," "When I've Gone the Last Mile of Life's Journey" and "I Won't Cross the Jordan Alone." Rev. Bowman spoke the closing prayer.

TWO FINED IN COURT

William Richard Thomas, 34, of Canton, charged with intoxication and being a suspicious person, and Leonard A. Simmons, 38, of Detroit, charged with suspicion, pleaded guilty in municipal court today and were fined $25 and costs each. Thomas was arrested by city police at Garfield park yesterday at 1:23 p.m. Simmons was picked up at the park at 7:21 last night.

STEEL SCRAP PRICE CALLED RIDICULOUS

By The Associated Press

NEW YORK, Aug. 6—Steel policies may become "completely demoralized, and stabilized costs 37.6 per cent above the 1939 prices hold to present "ridiculously high figures," the Iron Age, national metalworking weekly, said today.

Scrap's "inflationary gyration" surpass even the hectic World War I days" without a sign, "except wishful thinking," that a peak has been reached or a downward price trend will develop soon, the paper said.

The Iron Age steel scrap composite price reached a new high of $41.75 a gross ton; with "spectacular market strength."

The paper reported the average price for finished steel about 10.7 per cent above two weeks ago and 37.6 per cent above the 1939 average.

"For the first time in a good many years major firms in the steel products as semifinished steel, galvanized sheets, enameling sheets and long ternes," the Iron Age said.

"There was little or no squawking from steel consumers this week over the high prices for the simple reason that most manufacturers were expected to pass the increases along to the ultimate consumer. Availability of steel was still the major worry of steel user and not the price.

The Iron Age placed the steel ing for steel consumers this changed from a week ago, but predicted operations will be increased and the average rate will be "at least one to two points higher for some months to come."

ILLNESS FATAL TO ARTEMUS B. WARD

Hepburn Pike Resident Dies in Kenton Hospital.

Artemus B. "Barney" Ward, 80, a resident of Hardin county on the Hepburn pike west of LaRue, died in San Antonio hospital in Kenton at 6:24 last night. He had been ill since Sunday.

Born July 15, 1867, in Washington county, he was a son of George and Mary E. DeLegrange Ward. Aug. 30, 1890, he married Viola McPherson in Marion. A resident of and near the Marion community 50 years, he was a member of First Evangelical United Brethren church here, and was a retired factory worker. He was employed formerly at the Osgood Co. and the old Marion Steam Shovel Co., retiring in 1927.

Surviving are his widow, children, Mrs. Hazel Hanslin of near LaRue, Harry H. Ward of near Westerville, Walter W. Ward of near Marion and Mrs. Ruby J. Butler of Columbus, a brother, Wattie Ward of East Liverpool and a sister, Mrs. Anna L. Morris of Los Angeles, Calif.

Funeral services will be conducted Friday at 2 p. m. in the Schaffner-Denzer funeral home on East Center street by Rev. Garrison Roebuck, pastor of First Evangelical United Brethren church. Burial will be in Marion cemetery. Friends may call at the funeral home after 7:30 tonight.

Zanesville Player Suspended by Colley

By The Associated Press

COLUMBUS, O., Aug. 6—President Frank M. Colley of the Ohio State league today suspended player Robert Bartholomew of the Zanesville club for an indefinite period pending an inquiry into "trouble" in a game with Springfield at Zanesville last night.

Colley said he was informed that Umpire Henry O'Grady removed Bartholomew from the game for disputing a called strike. Upon being order from the park, Bartholomew threw his bat into the grandstand, striking two spectators, the league president said he was told.

"Official action in the case will be taken following receipt of the umpire's written report," Colley remarked.

Manager Don Ramsay of the Springfield Giants was fined $50 and suspended for three days by Colley for shoving Umpire O'Grady during an argument at Zanesville Monday night.

PACKARD, FRAZER BOOST PRICES TODAY

By The Associated Press

DETROIT, Aug. 6—Price increases ranging from $92 to $200 on all current auto models produced by the Packard Motor Car Co. went into effect today after the company disclosed a deficit of nearly two million dollars in its operation for the first half of 1947.

Packard, announcing the five per cent average price boost late yesterday, followed in the steps of General Motors Corp., which tacked two to six per cent on its prices last Friday.

Kaiser-Frazer Corp. also announced a price increase today, raising the factory list price of the Frazer standard model $99. The increase brought the factory list figure on this model to $2,152. W. A. MacDonald, vice president in charge of sales, said no increase was "contemplated at this time" in the price of the Kaiser or the Frazer Manhattan models.

Recent increases "in the cost of such basic materials as steel and certain parts, including brakes and wheels," were given as the reason for the Packard action.

Packard said the increases ran from three to seven per cent, and included $92 on the Packard six, $102 on the eight, $181 to $200 on the super eight and $100 to $120 on the custom super eight.

Ohio Temperatures Remain in Nineties

Just sit back and relax, 'cause it's going to be another hot day today and most of tomorrow will be warm, too.

However, the weather man promised that along about tomorrow, a cool breeze would arrive from the west to end the summer's first real heat wave.

He said there'd be a few clouds, but mostly it would be about as hot as yesterday, which was hot enough for most Ohioans.

There were a few areas yesterday that reported temporary relief when thunderstorms spilled rain on scattered areas, momentarily cooling things.

At Delaware, showers cancelled part of two Ohio American Legion Junior baseball games. Cooling winds also brought temporary relief to Dayton.

First Ohio Death From Heat Reported

YOUNGSTOWN, O., Aug. 6—First death here attributed to the continued heat wave was recorded today. Sanford Arriel, 63, stricken at his home, was dead upon arrival at a hospital. Mahoning County Coroner David A. Belinky said sunstroke was responsible.

BOTH SIDES CHARGE CEASE FIRE VIOLATED

BATAVIA, Java, Aug. 6 — The Netherlands army accused the Indonesian republic today of violating Monday night's cease fire order five times and at the same time denied Indonesian charges that the Dutch had committed such violations.

Indonesian Prime Minister Amir Sjarifoeddin had charged the Dutch with violating the cease fire order at Gombong, on the central front, 60 miles west of Jogjakarta, two and a half hours after the midnight deadline.

The Dutch declared today, however, that they actually occupied Gombong 30 minutes before the cease fire order became effective.

Charge Filed Alleging City Zoning Violation

Calvin Seas, real estate dealer of 131 East Pleasant street, appeared in municipal court today on charges of violating the use restriction on residential property under the city zoning ordinance. He posted $100 bond for appearance in court at 10 a. m. Aug. 19.

The affidavit, filed by Police Prosecutor John Watters, has reference to a pile of lumber on Seas' property at Hane and Mt. Vernon avenues. The lumber, Watters said, has been on the property for a number of months. He alleges that Seas had been asked by police to remove it upon complaint of neighbors last March but had not done so. The lumber pile in question caught fire a week ago, following which renewed complaint by neighbors resulted in the filing of charges, Watters said.

16 KILLED IN PRAGUE

PRAGUE, Aug. 6—Sixteen persons were reported killed and 35 injured today when the Bratislava-Prague express jumped the tracks near the border station of Kuty, in Moravia.

HUGHES

(Continued from Page 1)

Then Hughes informed Ferguson he had not had time to read the transcript, some 90 pages, of testimony he (Hughes) gave at an earlier closed committee session.

"First, senator I must say that the half hour accorded me to read this previous testimony was not enough," Hughes began. He asked additional time to complete it.

"Well—," Ferguson began. He paused, and then said that questions planned would not be based on Hughes' earlier testimony.

While Hughes waited to tell his own story of his wartime airplane contracts, senate investigators got an account today of his company's spending $3,732.77 on entertainment of Col. James G. Hall of the army air corps.

Hall succeeded Elliott Roosevelt, who recommended army purchase of a Hughes reconnaissance plane, as head of the air corps reconnaissance division.

John W. Meyer, Hughes' publicity man, read to the senate war investigating committee a long list of expenses he said he incurred entertaining Hall over a three year period.

When he concluded a two-hour recitation of them, Subcommittee Chairman Ferguson (R-Mich.) recessed the hearings until 1 p. m., EST. Ferguson said Hughes would be the first witness when the sessions were resumed.

The committee is inquiring into $40,000,000 of wartime plane contracts given the Hughes company.

Meyer gave his testimony as Howard Hughes, millionaire plane builder and movie producer, waited in Washington to testify after a cross-country flight.

Ferguson announced that Hughes would be called to testify at this afternoon's session.

The free spending Meyer, who has already said he spent more than $5,000 of Hughes' money entertaining Elliott Roosevelt and his friends, told the committee that on one occasion he spent $551.42 entertaining Hall. Roosevelt testified yesterday that some listed expenditures were made while he was not even in this country.

Meyer said the expense for hall covered five or six days in January, 1944, and included four to six people.

"Why were you paying these bills for Colonel Hall and charging it up to aircraft?" Ferguson wanted to know.

"Here we go again," Meyer said. "Business."

He has contended time and again in his appearances, starting last Friday, that he entertained freely, and that he was instructed by Hughes to charge such entertainment to Hughes Aircraft.

He reiterated again today that he kept his accounts "loosely."

Meyer read into the record a long list of smaller sums he said he spent on Hall in the same period.

Ferguson asked how Meyer learned that Hall had taken over from Roosevelt. Meyer said possibly through the Hughes company.

"Did you spend any money on Hall prior to this time?" Ferguson asked.

"I don't think so," Meyer replied.

He added that the entertainment occurred in Los Angeles.

Ferguson asked how Hall happened to be in Los Angeles.

"He obviously was there to look over our plant," Meyer said.

One of the Hughes contracts was a $22,000,000 one for reconnaissance planes.

Ferguson read items of $48.65, $10 and $5 for dinner and tips at the Beachcombers hotel, and $12 for lunch at Romanoff's.

Ferguson said it was not clear whether the total bill covered entertainment for Hall alone, and Meyer agreed that "it definitely is not clear."

Girls Show Up Again

The exchange continued:

Ferguson—But it all is charged to Hughes Aircraft.

Meyer—Right.

Ferguson—Whom was it for if it wasn't for Hall?

Meyer—I can't remember. As I have said before, I kept records loosely and (recorded) the dates and the money to the best of my knowledge.

Ferguson—I see some entertainment down at the bottom here for girls. Why was that charged to Hughes aircraft?

Meyer—That's what I am trying to figure out myself.

When Hughes reached Washing, he told reporters he was ready to repeat under oath "everything I have said" about the investigation of his contracts.

Hughes has charged publicly that the inquiry by the senate war investigating committee was launched as part of efforts to "coerce" him into agreeing to a merger of Trans World Airlines, which he controls with Pan American Airways.

Chairman Ferguson (R-Mich) of the subcommittee conducting the inquiry agreed with Hughes' attorneys to postpone the Hollywood millionaire's appearance in the witness chair until an afternoon session.

Hughes arrived here in his private plane and went directly to a hotel.

When the committee met at 9:20 a. m., Ferguson called Thomas Slack, Hughes' attorney, to the stand and asked "If Mr. Hughes is here?"

"He is here and ready and anxious to testify before the committee whenever it suits the pleasure of the committee," Slack replied.

Slack then explained that Hughes was at a hotel and would remain there until shortly before the committee was ready to hear him.

Hughes' plane, a converted B-23 bomber, landed at National Airport at 7:41 a. m. (6:41 a. m. Marion time.)

Hughes told newsmen who met him at the airport after a 13-hour flight from Culver City, Calif.:

"I will be glad to repeat everything I have said about Senator Brewster if he will allow me to cross examine him and call such witnesses as I wish."

The plane manufacturer has charged in various statements that Chairman Brewster (R-Me) of the full senate war investigating committee accepted free rides on Hughes' Trans World Airlines planes.

Hughes also has contended that Brewster tried to "blackjack" him into agreeing to a proposed merger of TWA and Pan-American Airlines into a single overseas carrier.

Brewster, in turn, has asked the justice department to investigate what he said was "a blackmail charge" by Hughes.

Hughes said he did not expect to testify today "because I understand they still have some other witnesses."

"But I'll be there today if they want me," he added.

Asked if he cared to say anything about hotel bills Hughes' press agent, John Meyer, said he paid for Elliott Roosevelt, Hughes said "I know nothing about it."

Hughes appeared tired from the long trip, broken only by a stop around 1 a. m. at Tulsa, Okla.

He said he piloted the two engine B-23 plane all the way and the trip was "OK."

Asked about the progress of the photo reconnaissance plane for which he has a contract with the army, Hughes said the plane now is undergoing flying tests and did not discuss it further.

Today was the agreed date of the Hollywood millionaire's appearance before the senate committee, which has been looking into his $40,000,000 contracts to build a 200-ton flying boat and three photo reconnaissance planes.

Hughes avoided a committee invitation—in the form of a subpoena—to appear earlier. But all preparations for his appearance today, including plans for a direct broadcast of his testimony, were made hours in advance.

The second son of the late president left the stand yesterday with the parting shot that Meyer's accounts of having always picked up the checks for a transcontinental round of entertaining Roosevelt, then an air force colonel, were "completely ridiculous."

Roosevelt contended that he was not present on many of the occasions when Meyer listed him as the recipient of Hughes company hospitality.

Ferguson thereupon said that Meyer will be asked to identify expense vouchers in which he wrote the names of other prominent persons.

These include Secretary of the Interior Krug, supposed to have been entertained by Meyer when Krug was chairman of the war production board. Krug previously has said he was not present at some of the affairs where meyer put him down as a guest.

The committee chairman listed Maj. Gen. B. E. Meyers, formerly assistant chief of the air corps materiel and supplies division, as another possible witness today.

The committee has received sworn testimony in closed sessions from Meyer that he spent a total of $798.70 on Roosevelt, another officer and their wives in April, 1944, at about the time the photo-reconnaissance plane contract was being negotiated finally with Hughes.

Roosevelt ended a two-day stay on the stand yesterday by publicly thanking the committee for the "very fair treatment" he said he had received at the hands of both Republican and Democratic members.

Previously he had said he regarded his involvement in the inquiry as an effort to "smear" the name of his father, the late president.

Truman Vetoes Bill To Set Up Foundation

WASHINGTON, Aug. 6—With what he said was "deep regret" President Truman today vetoed a bill to establish a National Science Foundation.

The President said in a memorandum of disapproval that while he had urged the establishment of such a foundation, the bill congress sent him involved a "marked departure from sound principles" of administration.

WYANDOT MAN HELD ON FORGERY CHARGE

C. W. Conley Bound Over to Grand Jury Here.

Charles W. Conley, 21, of Wyandot pleaded guilty in municipal court today when charged with forgery and was bound over to grand jury under $1,500 bond.

He was arrested by city police Sunday at 4:16 p. m. and held for investigation after his description was given by Fred Bender, Marion plumber. Mr. Bender, who operates the F. C. Bender Plumbing Co. at 466 West Center street, charged Conley with passing a bad check amounting to $20.

While Conley was held for investigation, two more checks one for $20, the other for $15 were reported to police. The last two reported were cashed at Marion filling stations.

Mr. Bender filed charges in municipal court this morning and Conley was arraigned before Judge Dexter Hazen.

Young Roosevelt, Wife Summoned as Speeders

By The Associated Press

LAKE SUCCESS, N. Y., Aug. 6 — P. Schuyler Van Bloem, mayor and police commissioner of the village of Lake Success, said last night that summons had been issued to Franklin D. Roosevelt Jr., and his wife to answer speeding charges.

Van Bloem said the two are to appear tomorrow night before Police Justice William H. Henrichs.

He said Patrolman Walter Ruckgaber issued the summonses, charging young Roosevelt and his wife, the former Ethel Du Pont, had raced their automobiles in the early morning along Nassau boulevard in the area of the United Nations.

Park Playground Attendance Grows

Their attendance continuing on the upgrade, city park playgrounds neared the 5,000 mark with a total attendance of 4,739 last week, according to a report by Joseph Petrich, playgrounds director.

This was an increase of 580 over the previous week, which had been high for the summer.

McKinley park led in attendance with 2,387, Garfield reported 1,109, Lincoln 868, and Silver Street 475.

The tennis courts at Lincoln and McKinley parks were put into condition for play and that drew a number of persons to those playgrounds. Some improvements still have to be made on the McKinley courts. Picnickers also turned out to increase the attendance.

ACCIDENT REPORTED

Minor damage resulted to a car driven by Sherman H. Horley of 1014 Bryant street following a collision Tuesday at 11:30 a. m. on West Center street near Prospect, city police reported today. According to the report given at the station by Horley, he collided with another car while attempting to pass a truck that was double parked. Driver of the other car wasn't known, but minor damage resulted to both vehicles, police said.

Reserve Group Entertained at Engineer Depot.

The monthly meeting of the Marion Area chapter of the Reserve Officers association was held in the officers club at the Marion Engineer Depot, Tuesday night. Hosts were officers of the depot staff and speaker was Col. Henry F. Grimm, instructor for Ohio Military Reserve Affairs, of Columbus.

Brief reports were given on the contact camp and the summer council meeting of the Department of Ohio, R. O. A., held last month at Columbus. Col. Hubert L. Taylor, president of the association, named the following to serve as a recruiting committee: Major LeRoy W. Kohlhorst, 1st. Lt. Robert L. Reid and 2nd Lt. Wayne E. Shaw.

Col. Grimm told of the organization of the Reserve corps, the instructors' staff, affiliated units and the objectives of the War Department in the Reserve program. Captain Stagg, unit instructor for Columbus and adjoining areas, was a guest.

Two Calls Answered By Marion Firemen

City firemen were called to extinguish two fires Tuesday.

The first, an automobile fire, occurred in front of 696 Meadow street at 2:18 p. m. A short circuit in the wiring of a car owned by N. S. Howell of 762 Uncapher avenue caused wire insulation to burn. Loss was estimated at $10.

Another resulted from a person's smoking in bed. At 6 p. m. the department was called to a rooming house at 149½ North Main street operated by Mrs. Louise St. Germain. A bed was burning. Damage was estimated at $35. Firemen did not obtain the name of the tenant whose cigaret started the blaze.

FORM ASSOCIATION TO INSURE ATHLETES

By The Associated Press

COLUMBUS, O., Aug. 6—Formation of the Ohio Athletic Injury Mutual association to insure male athletes in high school against injury was announced today.

The association, organized by members of the Ohio High School Athletic association, was incorporated with $50,000 capital and has applied to the state division of insurance for a license.

Approximately 35,000 boys in high schools who are members of the OHSAA will be eligible to participate in the insurance plan, under which an injured athlete could claim a maximum of $300 in compensation.

The insurance will cost $2.25 a year for a football player and $1.25 a year for a participant in any or all other sports, or $3.50 a year for coverage of all sports.

The incorporation papers were drawn up yesterday at a meeting of the OHSAA state board of control and district boards.

Ivan A. Davis of Columbus, who was elected general manager, said that to the best of his knowledge only Iowa had a similar plan of insurance.

KENT TO OBSERVE HIROSHIMA BOMBING

By The Associated Press

KENT, O., Aug. ..—"Survival day," commemorating the second anniversary of the atomic bombing of Hiroshima, will be celebrated tonight by some 500 members of the newly formed Kent Town meeting in a program designed to "make the public aware of the need for strengthening the United Nations."

William R. Thom of Canton, former 16th district congressman, will be principal speaker at the celebration, which will feature a parade by World War II student veterans at Kent State university, said Rev. Joseph Henderson, president of the Kent Town Meeting.

The group recently sent telegrams to Secretary of State Marshall and President Truman urging an amendment to eliminate the veto power in the United Nations and other moves to permit the UN to "protect the world against possibility of an atomic war."

The San Francisco fire of 1906 burned 28,000 buildings in 514 blocks.

Austria's Red Threat Viewed

Marion Man Back from Service in Army Speaks at Rotary Meeting.

"Communism Today in Austria" was the subject of a talk given by Ransome Williams of Marion, recently returned from 18 months' service in Austria with U.S.Army Counter-intelligence service, before the Rotary club in its weekly luncheon meeting Tuesday at Hotel Harding.

The national government in Austria, Mr. Williams said, is made up of three parties, Peoples, Socialist and Communist. Only one office in the government is held by a Communist, and this one corresponds to the secretary of interior in the United States. In Austria, the police force is maintained under this office.

Mr. Williams told his audience that the Communist party in Austria is a minority party, consisting of only 5 to 10 per cent of the people who belong to any party and is backed by Russia. He said the Russians control the part of Austria which has most of the utilities, transportation, phones and electricity, and that the oil fields and best farming lands are controlled by the Communist party.

Although most Austrian people are opposed to Communism, the Communist party has much strength in Austria, with its spy system and listening posts, and is forming a wedge to attempt to take over the national government, Mr. Williams said.

The son of Mr. and Mrs. Paul Williams of Summit street, Mr. Williams has just recently received his discharge from the Army counter-intelligence service. He plans to return to school at Miami university this fall and enroll as a senior in pre-medical school.

James Mautz, business supervisor at the Marion City hospital, was welcomed into the club as a new member.

Guests were Harley Roby and William W. Roby of Minerva, O., Eugene Willey of Stuttgart, Ark., J. E. Clark of Buffalo, N. Y., D. H. Planton of Youngstown, Mike Blazo, a member of the Muncie baseball team, and Robert Solinger and George Stafford of Marion.

Break 3 Store Windows At Upper; Seek Vandals

Special to The Star

UPPER SANDUSKY, Aug. 6—Police today were still hunting three men who shattered three plate glass windows at the Rogers grocery here Sunday morning. A neighbor who heard the crash stepped to a window in time to see three men run to a car parked nearby and drive away. He placed the time at 4:15 a. m. Pieces of vitrified tile were found among the broken glass. It is believed the trio staged a simultaneous hurling act and sped away. Owner J. T. Rogers said he did not know of anyone who would have a motive for the act of vandalism.

NEW YORK, Aug. 6—Two "mild" earthquakes, believed in the vicinity of Ecuador, were recorded at 12:55 a. m. and 1:01:24 a. m. (EST) today by the Fordham university seismograph, Rev. Joseph Lynch, university seismologist, also said a "very severe" quake was recorded at 9:20 a. m. (EST) yesterday about 8,000 miles from New York in an undetermined direction.

ARREST MADE AFTER CRASH NEAR KENTON

One Man Injured as Tractor and Truck Meet.

One person was injured and one fined as the result of an accident on Route 30 S six miles east of Kenton yesterday afternoon, according to a state highway patrol report.

Two westbound vehicles, a tractor towing a moving machine, and a semi-truck were involved in the accident. It occurred when the truck, driven by Morris J. Haney, 40, of Chicago, tried to pass the tractor and avoid hitting some eastbound automobiles. The tractor, driven by Albert Seiler, 31, of near Kenton was partially off the road, patrolmen said, but it was not possible for the truck to pass.

The semi-truck hit and smashed the mower and caught the tractor's left rear wheel, flipping it over into the ditch.

Seiler was thrown off the tractor and suffered large abrasions of the right elbow and arm and his right shoulder was sprained. He went to a doctor in Upper Sandusky for treatment last night.

Haney was charged with reckless driving after the accident. He pleaded guilty to the charge in Kenton mayor's court last night and was fined $10 and costs.

Excuse Is Good If Garbage Man Is Late

By The Associated Press

TIFFIN, Aug. 6 — If garbage collector C. H. Cook is late making his rounds, it's probably because he believes in serving the public.

As he prepared a red warning ticket concerning the condition of a garbage container, an aged householder appeared to explain that she had been ill.

Cook looked about, saw apples rotting under trees and grass growing up to here. He picked up the apples and tidied up the yard while a helper mowed the lawn.

Then he tore up the ticket and continued on his rounds.

FINED $10 FOR BAD BRAKES

Ohioans To Vote On Gas Tax Limit Plan

By The Associated Press

COLUMBUS, O., Aug. 6—Ohio voters likely will vote in the November election on a proposed constitutional amendment to prohibit the use of gasoline and auto license revenues for anything but highway purposes.

A committee sponsoring the amendment said it would file a petition with more than 300,000 signatures with Secretary of State Edward J. Hummell today.

If Hummel finds the signatures are sufficient, the proposed amendment will go on the ballot.

Man Fined, Sentenced On Charge of Larceny

Murray Collins, 36, of 744 Creston avenue, was found guilty of larceny in municipal court Tuesday and was fined $200 and costs and sentenced to 30 days in Columbus workhouse.

Charged with stealing $28 in cash from Carl Edwards and a ring valued at $5 from Louie Riley, both of the Creston street address, Collins pleaded not guilty when he appeared in municipal court, Aug. 5. At that time he was released on $200 bond. Charges were filed by Mrs. Amandy Rowe, who operates a rooming house at the above address.

MUNCIE BEATS CUBS 17-16 IN 11 INNING MARATHON

Marion Blows Chance To Win in Eighth with Score Standing 13 to 7.

By DON C. BURTON

Both the Marion Cubs and Muncie Packers have an open date tonight and both will need it.

The two teams played for three hours and 28 minutes at Lincoln park last night before the Packers won an 11-inning marathon, 17 to 16. The crowd of 1,346 that stayed through the hectic contest saw everything in the book except a batter hit by pitcher. Thirty-five hits were divided between the two teams. A total of 21 base on balls aided the scoring.

The Cubs lost the game despite a six-run lead at the start of the eighth inning when the scoreboard read 13 to 7.

Bob Shuford almost won the game several times. The big southerner cracked out five hits in seven trips including a home run and batted in three runs and scored three himself. Gene Bobzean was not far behind with three hits in seven tries including a home run and triple and a trio of runs driven over the plate. Shuford also was busy in the outfield as the former North Carolina fullback snagged five flies in the garden.

A double to left by Don Kirby with the bases full in the top of the eleventh scored the winning runs for Muncie. Bill Ford had opened the inning on Frank Smith with a single and after two men were retired went on to third on a double by Tom Florence. Manager Burbrink then ordered Smith to walk Lin Lamont, which looked like the proper strategy at the time, but Kirby hit the first pitch to left to score two runners.

Rally Falls Short

The Cubs tried to rally in the bottom half but fell one run short. Wally Rasmussen singled for his third hit of the night to start. But the two big guns of the Marion crew failed as Dwight Maxhimer grounded to first and Burbrink struckout. Shuford, up for the seventh time and with five hits already to his credit, sent a roller to second and Locke threw wild to first allowing Rasmussen to score. Gene Bobzean ended the game with a grounder to short.

Six pitchers saw service in the overtime contest, four for Muncie and two for Marion. Bert Flamini started for the Cubs and saw the Packers score seven runs in the fourth after the side should have been retired. He left the game at the end of the seventh to allow Mel Nelson to hit for him. Nelson came through with a triple to right to put the score up to 7 to 6. Walter Post, brother of Ed who pitched Monday night, started the game for Muncie and saw Marion get four runs in the opening round, only one of which was earned. He left the game in the seventh inning with the bases full and none out with Virgil Dickinson taking over.

Frank Smith took up the hurling chores for the Cubs in the seventh and failed to get the side out without scoring in only one inning. He was hit hard although he whiffed seven in five rounds. He was tagged with the loss. Ed Moeller who worked the last two rounds for Muncie got the win.

The Cubs had a three-run lead going into the ninth following Gene Bobzean's homer to start the eighth. Two pinch hitters came through for Manager Mike Blazo and then after two were out and two strikes on Spike Foster the All-Star outfielder hit one of Smith's pitches far over the left field fence to tie the score at 14 all.

In the top of the tenth Muncie got a run on a double by Lamont, a balk and a single by Lanning.

Bob Shuford tied the score in the bottom half when he hit the second pitch over the right field wall. Gene Bobzean followed this blow with a triple and things looked fine with none out, but Moeller retired the next three men without a scoring chance.

CAGE STAR'S LEGS IN CAST

By The Associated Press

COLUMBUS, O., Aug. 6 — The physician attending Jack Underman, 21-year-old Ohio State university basketball star who received fractures of both legs in a traffic mishap, said his patient would wear casts for the next three months. It will be two months, said the doctor, before the seriousness of the athlete's injuries will be known.

Runs Hard To Get As Dodgers Grab Sixtieth Victory

By The Associated Press

Runs were plentiful in a Muncie 17, Marion 16 contest in the Ohio State league last night, but were equally scarce when the Zanesville Dodgers picked up their sixtieth win of the season with a 3 to 1 victory over the Springfield Giants.

At Newark, Dayton went eight scoreless innings but eventually nabbed an eleven frame nightcap 9 to 6, after losing the first game of a double bill, 7 to 6.

Bob Verrier's ninth inning single scored two runs to give the Richmond Roses a 7 to 6 win over the cellar-dwelling Lima Terriers.

George Seeley of Zanesville granted only five hits as the Dodgers moved into the sixty win column.

Dayton combined four walks, an error and two hits for a five run rally in the second inning that kept them in the ball game after Newark's Merkle was relieved by Wilson, who blanked the Indians with three hits until the eleventh inning, when they connected again. Singles by Sebastian, Calo, Leslie and Smith won for Dayton.

Rodney Favored In Hambletonian

By The Associated Press

GOSHEN, N. Y., Aug. 6—It was the Dixie Flier—big and fast Rodney—against a dozen other three-year-old trotters in the Hambletonian today.

And before the starter gave them the "let 'em come, now," for the first one mile heat of the twenty-second running of the hayseed hustle, Bill Cane expected there'd be a new all-time Hambletonian high of 20,000 improvers-of-the-mutuel machines on hand.

As usual, the gee-gee who got home first in two heats was going to step up to the paying teller's window to collect the $24,979.86 winner's paycheck from the $46,267.93 total purse.

And wherever you went around here today, one and all agreed that whoever was going to do it would have to beat the Carolina giant, Rodney.

The huge son of Spencer Scott—Spencer won it in 1940—was picked up as a yearling for $4,600 by R. Horace Johnston, the Charlottee (N.C.), trotting horesman, and already has won over $30,000.

The knock-down-the-favorite club, holding its regular pre-race meeting, stabbed at four others of the 12 who will tangle with Rodney. Heading this quartet was the one-two punch from the Castleton farm of Mrs. James B. Johnson of Lexington, Ky.—Hoot Mon, who whipped Rodney in the Lexington trots last year — and Volotone, who took one of the heats of the National Stake from Rodney last month.

The other pair of leading threats are Way Yonder, a homebred from the Gainesway farm of Clarence Gaines in the Kentucky blue grass, who whipped Hoot Mon and Volotone last year and who'll be driven today by Tom Berry, two-time Hambletonian winner, and Buckshot B., from the barn of Martin Burke of Troy, N. Y.

Football Candidates To Report Monday

All candidates for the Harding football team this fall are to report to Harding High school Monday at 7:30 p. m. Physician's participation cards will be passed out and assignments for doctor's examinations will be given. This must be done before practice starts.

Mize Keeps Giants in Pennant Race with Home Run Hitting

By JOE REICHLER

Associated Press Sports Writer

It is still anybody's race in the National league and as long as big Johnny Mize keeps clouting those long ones, the homer-hitting New York Giants are not to be sold short.

Mize not only is keeping the Giants very much in the pennant fight, but is seriously threatening what is probably the greatest batting feat in baseball — Babe Ruth's record of 60 home runs in the 1927 season.

The hard hitting first baseman walloped two into the Polo Grounds stands last night to lead the Giants to a 5-2 victory over the Philadelphia Phillies.

The victory, coupled with the Braves' 4-2 win over Brooklyn in Boston reduced the league leading Dodgers' margin over the third place Giants to seven games.

The runner-up St. Louis Cards now trail the Dodgers by six games following their 8-2 triumph over the Cubs in a daylight game in Chicago. The Braves, in fourth place, are 10 games off the pace.

Mize's par of round trippers, his thirty-third and thirty-fourth of the season came in the giants' 96th game and put him two games ahead of Ruth's record setting pace.

Taking advantage of 10 bases on balls to add to their 11 hits off four Cincinnati hurlers, the Pittsburgh Pirates disposed of the Reds in Pittsburgh 12-4.

The Yankees stretched their American league lead to 14 games over the runner-up Boston Red Sox by defeating the Athletics in Philadelphia 8-5 in a night game while the Sox were losing a 3-1 decision to the Senators in Washington. The Yanks jumped on Bob Savage and Russ Christopher for four runs in the top of the ninth.

The Cleveland Indians downed the Tigers in a twilight game at Detroit 8-4.

Ed Lopat handcuffed the Browns in St. Louis with four hits in pitching the Chicago White Sox to a 1-1 night game victory.

Battle Royal Slated for Thursday

A five man battle royal is signed for the wrestling menu at the Marion Armory Thursday night and from a look at the names; it should be just about the best one ever seen in Marion. The five men are Sammy Kohen (Red Devil), Billy Fox, Rufus Jones, George Strickland and Frankie Taliber. It will mark Taliber's first Marion appearance but Frankie has headlined many a show in Columbus. The first man to lose in the battle royal is through for the evening, the next two out return for the forty-five minute semi and the last two left in the ring wrestle the two hour main event. All matches are for the best two out of three falls. A ten minute prelim between Don Grove and Herb Williams will start the show at 8:30. No advance in prices. Call Markert & Lewis Cigar Store for your best ringside.—Adv.

Old Yank Pitcher Helping Out Blues

By The Associated Press

The pace - setting Kansas City Blues have uncovered a former New York Yankee pitching star, southpaw Marius Russo, to bolster their bid for the American Association pennant, who helped last night knock a lot of wind out of challenging Louisville with a double triumph. The 33-year-old Russo tossed a five-hitter to win the seven-inning opener with a 4-0 shutout.

Russo, a 14-game winner for the Yankees in 1940 and 1941, now has notched two wins in as many starts since he came to the Blues last month.

In the finale at Louisville last night, Kansas City got a 6-2 triumph duming the Colonels five full games behind the Blues.

Third - place Milwaukee lost ground to Indianapolis when the Tribe eked a 3-2 victory over the Brewers.

Another closely-pitched game was turned in at Columbus where the Red Birds' Wayne McLeland shaded St. Paul's LeRoy Pfund, 2-1. The Red Birds collected both of their runs in the ninth inninth inning, Mike Natusin singling across the deciding marked with the bases loaded.

Last-place Toledo, behind Ray Shore's seven-hit twirling, dumped Minneapolis, 6-3, as Jerry Witte banged his eighth homer since rejoining the Mud Hens with one on in the first inning and Dick Kimble belted his 12th circuit wallop with none on in the third.

SMITTY'S GRILL WINS 13 TO 5 IN FIRST TOURNAMENT GAME

Marion Team Turns Back Upper Sandusky V.F.W. at Mt. Vernon.

Special to The Star

MT. VERNON, Aug. 6—Smitty's Grill of Marion handed Upper Sandusky V.F.W. a 13-5 setback in the district tournament here last night.

The win moved Smitty's into the quarter-finals Friday night They will play Stone's Grill of Mt. Vernon, a team which moved up by virtue of a 9-6 win over Cochran Motors of Mt. Vernon last night. Smitty's have defeated Stone's Grill twice this season, in non-tourney play.

Max Roseberry, hitting three for four, and Fritz Walters, three for five, sparked the 15 hit Marion attack. Guy Lewis, Smitty hurler, held the Upper crew scoreless through the first three innings, while him teammates were picking up nine runs, shooing pitcher Larick from the box with seven in the third.

Last night's start was Smitty's first in the meet and Upper Sandusky's second. A single defeat eliminates a team.

Games coming up tonight are Gorman Rupp of Mansfield against Terminal Cafe of Mt. Vernon at 7:30, and Bucyrus Moose against Strine's Gulf of Ashland. Strine's was runner-up for the district title last year.

Tong, Schlairet, DeMolay Win

Tong Implement of Waldo, Schlairet Transfer, and DeMolay got wins in Commercial league softball games last night. The Moose-Co. M game was not held because several Moose players went with Smitty's Grill to the district tournament in Mt. Vernon.

Tong set back McAllister, 7-5. Ward getting two safeties for the winners and Chapman duplicating the feat for McAllister.

Schlairet racked up a 15-6 win at the expense of Standard Oil Mulvaine, Dillion, and French each got two hits for the winners. Two of the three hits made by Standard Oil were by Oram. One was a home run.

Reds Return Home With Pitching Woes

By The Associated Press

CINCINNATI, Aug. 6 — Field Boss Johnny Neun of the Cincinnati Reds had intensified worries today when he brought them home for a tussle with the St. Louis Cardinals tonight first of two games with the world champions.

He sent four hurlers into action at Pittsburgh yesterday, and saw them battered for 11 hits. They issued a total of 10 bases on balls as the Pirates, paced by Big Hank Greenberg, romped to a 12-4 victory.

Hank continued a timely-hitting spree, driving in three runs with two singles in four trips. He bounced out of his slump Sunday, belting three homers in a twin bill with the New York Giants.

Mel Queen and Kirby Higbe checked the Reds with seven hits, including Grady Hatton's 11th homer of the season in the first inning.

Johnny Vander Meer was Neun's overnight choice to face the Cards tonight. Murray Dickson was to oppose him.

TAKES COACHING JOB

By The Associated Press

LOGAN, O., Aug. 6 — Dwight L. Diller, 32-year-old former Bluffton and Bowling Green high school coach, held the head football and basketball coaching job at Logan High today. He succeeds Tom Armstrong, now athletic director of Rusculum college at Greeneville, Tenn.

BOUDREAU REGAINS LEAD IN BATTING

By The Associated Press

DETROIT, Aug. 6 — Lou Boudreau, back on top of the American league batting averages with .336, sends Bob Feller to the mound against the Tigers today in the first game of a double header, probably against Freddie Hutchinson (10-4).

It will be another Feller try for his fourteenth victory, one he missed in New York in an extra-inning back-breaker against the Yankees.

Boudreau probably will use Mel Harder, with six wins and one loss, in the nightcap.

The two hits that put the Tribe manager-shortstop back in the batting lead—he relinquished it to George Kell of the Tigers last Sunday — were doubles in yesterday's 8 to 4 Indians win over third place Detroit.

Kell was sidelined with pulled muscles in his right hip.

The game was Dizzy Trout's fifth straight loss. He went out after the Indians scored two runs in the fifth inning, marking a full month since Trout has finished a ball game.

Hank Edwards hit his sixth homer against the facing of the upper stands in right center Al Benton, Hal White and Johnny Gorsica followed Trout.

The triumph went to Bob Lemon despite some shaky moments: He walked seven and issued one wild pitch, and yielded to Ed Klieman in the ninth inning.

Eight Seeking Share Of $200,000 Ohio Estate

By The Associated Press

CANTON, O, Aug 6—Eight persons claiming to be heirs of the late Harry R. Ryan are seeking his $200,000 estate in probate court here

Ryan died last Feb. 8 without leaving a will. A safe at his suburban home contained $150,000 in cash.

Attorneys for Mrs Rose Ryan his widow, have presented 23 witnesses in support of her claim to the estate, in a hearing before Probate Judge Reuben Wise.

Other claimants include two brotners, Frank of Canton and Edward of Cincinnati, four sisters, Mrs Mabel Murray of Cincinnati, Mrs Helen Holt of West Virginia, Mrs. Rose Mencher of Baldwin, N. Y, and Geraldine Ryan of Cleveland; and a half brother, Thomas Heller of Akron

WAGE ROW

(Continued from Page 1)

and George Geyer, Xenia restaurant operator.

Chairman Annie Lockett of Springfield announced the board went ahead to prepare the recommendations for Rogers, after the three walked out of last night's executive session.

Director Rogers must accept or reject the board's recommendations. If he accepts the recommendations, they will have the full force of law. Employers objecting to them could appeal to the courts to nullify the wage order

Rogers said he had not received the resignations of the three members, questioned whether they actually would quit, and said if they did he doubted whether he would accept the resignations

"They might change their minds and not resign," he remarked

Under present scales, minimum wages vary from $6 25 a week to $10 50 a week for minors and women working in hotels and restaurants. Current scales have been in effect since 1937.

The recommended schedule, Miss Locket said, was based on a 48 hour week, with hourly wages varying from 31 to 56 cents bringing minimum weekly wages from $14.88 to $24 a week.

Most Over Minimum

She said that most Ohio hotels and restaurants now pay above precent minima but that evidence obtained during two hearings indicated that some employers stuck to the minimum.

Miss Lockett said that the recommended schedule is divided into two general classifications, service and non-service employes. Wage rates, she said were based on city populations.

The schedule recommended by the board with the present scale listed first:

Cities of 100,000 or more population — Non-service, $00.21875, $00.50; Service .1562, .35.

Cities of 5,000 to 100,000—Non-service $00.1875, $00.45; Service .1456, .33; Remainder of state—Non-service $00.1666, $00.40; Service .1302, .31.

Part time employes: five cents an hour increase over basic rates

Myers, a hotel operator, Weil, a druggist, and Guyer, a restaurant operator, left the meeting when a resolution to increase minimum wages to 66-cents an hour was introduced.

This resolution, which was altered in favor of the final recommendation, came after the board by a 6 to 3 vote defeated a motion to maintain the 1945 levels created by a mandatory order.

The employer representatives released a letter of resignation saying

"Such a scale as proposed would be a paralyzing blow to our fellows in the food, drug, and lodging business '

"We had not heard enough from the public, which, after all, pays the bill, to be a party to causing * * * increases in the price of meals in public feeding establishments," they wrote Rogers

Before the trio walked out, the board had spent two days hearing testimony for and against proposed increases

The law provides that the scale may be "modified" from time to time The question of whether the scale could be "modified up" created considerable debate

and approximately 300 planes were either destroyed or damaged beyond repair in the fire yesterday. Also destroyed were 1,000 plane batteries and nearly 200 tires and propellers for the 1,200 planes stored on the field

Most of the burned aircraft were two-motor Cessnas or BT-13s.

Two Dallas men, Homer Snowden and Henry L Seals, owned the field, where they had been operating a general war surplus business in addition to aircraft

MIAMI, Fla., Aug 6 — Six large passenger planes and an undetermined number of small craft and 50 airplane engines were destroyed today in a spectacular fire that gutted a huge hangar at the 20th street airport.

An airport official estimated damages at almost $2,000,000

4-Months Premature Baby Is Doing Well

By The Associated Press

MADISON, W Va, Aug 6— One-month-old "Inky," the incubator baby born four months prematurely, today was given every chance for survival, although she weighed only one pound, 11 ounces at birth.

Dr. David Hill, director of the Madison General hospital, said the survival of an infant born so early is rare, but that the blue-eyed daughter of Mrs. Ray Jarrell has already gained five ounces and should develop normally.

"Inky"—the infant's only name so far—was delivered by Caesarian section July 3 to Mrs. Jarrell, wife of a coal miner from Uneeda, W. Va.

LOVE'S PERILOUS PATH

By ADELE GARRISON

KATHARINE gave a slight shrug of her shoulders and lifted her eyebrows as she shepherded Faith toward her bedroom. I knew that she was thinking, with a tinge of malicious amusement: "This is your dish, my dear!"

Then the door closed upon her and her small charge, and I spoke firmly to Mary.

"Seeing Olina is the one thing which you must not do this morning," I said. "Have you forgotten that your father-in-law will be down here in a little over an hour? You must see no one until after that interview."

"I suppose you're right," she said sulkily. Then her temper flared, in familiar fashion.

"But sometimes I wish old Phil Veritzen would take himself down to the ocean, tie one stone to his temperament and another to his neck, then wade out up to his neck and gently lie down to sleep."

"I'm with you on that wish, Brat," her uncle said. "But I'm afraid I'll have to be Aaron—wasn't that the name of the old cuss who held up the arms of Moses—in backing your aunt up on this proposition. You simply mustn't see anybody until you see old Phil."

"What do you want me to do, go back into the bedroom?" she asked me, and there was still a sulky nuance in her voice. But saw that her lips were beginning to quirk into a smile, and knew that the battle was won.

"I think that would be best," I said, and then Faith, all ready for school except for her hat and coat, came into the room with Katharine, and rushed straight at Mary, who was almost at the door of her bedroom.

"Oh, Cousin Mary!" she cried reproachfully. "Were you going without saying good-bye to me?"

"Never, little sweetheart," Mary said, stooping and giving the child a bear hug.

"I thought you wouldn't," Faith said contentedly, and then, Katharine. Dicky and I managed to separate the two children—for Mary, in her present state of mind, was something less than adult—and get Mary into the bedroom, leaving Faith to wait, with Dicky, for Olina.

Mary looked up at Katharine quizzically.

"What's the next step?" she asked.

"Take off your housecoat and slide into bed for a few minutes," she said. Then, smiling, she shook a forefinger at the rebellion in Mary's eyes.

"You don't want us to have to lie to Olina, do you?" she said. "Faith is sure to tell her again, what she already knows, that you breakfasted with Noel, and she may wonder why you aren't around to say good morning at least."

Olina Will Wonder

"Of course she'll wonder," Mary said, still palpably rebellious, "but I suppose I mustn't see anybody else until after I've gone and prostrated myself beneath the chariot wheels of my respected papa-in-law."

"Exactly," Katharine said, with a grin at her. "And if you'll get into bed you'll give your Auntie Madge a clear conscience which she badly needs. She then can say to Olina that I ordered you back to bed so that your breakfast with Noel would not fatigue you, and that later in the day she is very sure you will be able to see both her and her mother."

"Okay, okay!" Mary said petulantly. "I'll get into bed, but I'm not pretending that I'm liking it."

"Nobody's asking you to do anything so superhuman as to like it," Katharine told her, and Mary took off her house coat, crumpled it into a careless ball and tossed it on the nearest chair. It was a childish gesture of defiance which both Katharine and I pretended not to see, but I knew that I was as relieved as my kinswoman when Mary fairly threw herself into bed.

"What's the next move?" she queried then.

"We don't know yet," Katharine replied placidly. "After Olina goes, we'll view the situation."

"Dollars to doughnuts mit little holes in 'em, the situation will be viewed with alarm," Mary retorted, as she burrowed her head into her pillows.

"We'll leave you to yourself for a few minutes," Katharine said. "Try to relax. Come on, Madge, back to the sitting room."

"And the great explanation scene," Mary quipped, raising her head with a glance at us that I saw, relievedly, was mirthful. "Au revoir, Sapphiras No. 1 and No. II."
